MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS

Global Economy

Global economic growth in 2018 is estimated at 3.9% up from 3.8% in 2017 with a notable rebound in global trade. Growth in advanced economies increased from 1.7% in 2017 to 2.3% in 2018 and emerging economies increased from 4.4% in 2017 to 4.8% in 2018. Resurgent investment spending in advanced economies continued strong growth in emerging Asia, a notable upswing in Europe and signs of recovery in several commodity exporters led to an upswing in global economic growth in 2018. In advanced economies, stronger gross fixed capital formation, acceleration in stock building along with accommodative monetary policy and an improved outlook contributed to the pickup in investment and revival of demand for capital goods.

Global growth is projected to further strengthen to 3.9% in 2018 and 2019. This short term growth is anticipated in advanced economies by positive macroeconomic effects of the December 2017 US tax reform and stronger prospects in euro market countries and in emerging market and developing economies by improved prospects for commodity exporters, stronger private consumption and investment and nation-wide implementation of the goods and service tax in India.

Global Pharma Market:

The global pharmaceutical industry revenue is forecasted to reach an estimated \$1,226.0 billion by 2018, with good growth over the next five years (2013-2018). The industry is expected to register growth led by aging population, changing lifestyles, hectic daily activities, unhealthy eating habits, increasing incidence of chronic diseases across the entire global population providing growth opportunities for the industry players.

The industry is engaged in discovery, development, manufacture, and marketing of prescription drugs. Industry products include ethical drugs and consumer healthcare but animal healthcare drugs are not included.

The global pharmaceutical market faces major challenge from increasing investment and strict regulation. Changing lifestyles and the fast socio-demographic shift due to urbanization in both developed and growth markets globally are expected drive the demand. The ability to create new technology and innovative drugs is a key driver for success in this market.

North America is projected to lead the pharmaceutical industry. Vaccine industry is expected to record the highest growth during the forecast period. ROW industry is expected to witness the highest growth during 2013-2018. Government initiatives in Brazil to encourage drugs industries by providing free pricing policies and special financial investment options will attract the industry players. APAC holds good growth potential for the future.

This study provides an overview of the global pharmaceutical industry by tracking 13 market segments of that industry in four geographic regions. Thus, a total of 52 segments of the global pharmaceutical industry are tracked. The report studies manufacturers of bone, respiratory, immunology and dermatology, cardiovascular, diabetes & obesity, urinary/kidney diseases, gastrointestinal, neurosciences, infectious diseases, ophthalmology, oncology, women's health/ endocrine, vaccines, consumer health/OTC, and others providing a five-year (2007-2012) annual trend analysis that highlights market size, profit and cost structure for NA, Europe, APAC, and ROW. The report also provides a forecast, addressing market opportunities for next five years (2013-2018) for each of these regions.

R&D -During the 2008-2015 period, the compound annual growth rate of global R&D spending was 1.7%; during the 2016-2022 period, the rate will grow at 2.8%. The year-over-year increase, however, will remain around 3%, versus some dramatic jumps seen in 2013, 2014 and 2015.

The global spending on medicines is forecasted to reach close to US\$ 1.5 trillion by 2021, an increase of about 33% over the 2016 level, growing at 4 to 7% only slightly slower than 6.2% growth over prior five years. Developed market spending growth will be driven by original brands and innovation in specialty medicines while Pharma emerging markets will continue to be driven by off patent generic products. Innovation in specialty medicines will continue lifting the share of global spending from 30% in 2016 to 35% in 2021 driven by the adoption of new breakthrough medicines.

Domestic Pharmaceuticals Market

The pharmaceutical sector was valued at US\$ 33 billion in 2017. The country's pharmaceutical industry is expected to expand at a CAGR of 22.4 per cent over 2015-20 to reach US\$ 55 billion. India's pharmaceutical exports stood at US\$ 17.27 billion in 2017-18 and are expected to reach US\$ 20 billion by 2020.

Indian companies received 304 Abbreviated New Drug Application (ANDA) approvals from the US Food and Drug Administration (USFDA) in 2017. The country accounts for around 30 per cent (by volume) and about 10 per cent (value) in the US\$ 70-80 billion US generics market.

India's biotechnology industry comprising bio-pharmaceuticals, bio-services, bio-agriculture, bio-industry and bioinformatics is expected grow at an average growth rate of around 30 per cent a year and reach US\$ 100 billion by 2025. Biopharma, comprising vaccines, therapeutics and diagnostics, is the largest sub-sector contributing nearly 62 per cent of the total revenues at Rs 12,600 crore (US\$ 1.89 billion).

OVERSEAS MARKETS

The development of the business in overseas markets is a critical factor in determining future ability to sustain or increase global product revenues. This poses various challenges including volatile economic conditions, IP issues, developed market compliance standards, inadvertent breaches of local/ international law and interventions by national governments or regulators restricting access to market and/or introducing adverse price controls. However, the Company carefully monitors the business scenarios of these markets, prepares the business plan and undertakes various researches to reduce the risk at the minimal level.

In US, there is a continuing trend towards consolidation of certain customer groups such as wholesale drug distribution and retail pharmacies as well as emergence of large buying groups. The consolidation may result into these groups gaining additional purchasing leverage and consequently increasing the product pricing pressures. Additionally, the emergence of large buying groups representing independent retail pharmacies, prevalence and influence of managed care organizations and similar institutions potentially enable those groups to attempt to extract price discounts on the Company's products. The result of such developments could affect the sales volumes and price realizations of the Company's products on an overall basis.

CURRENCY FLUCTUATION RISKS

Currency risks mainly arise out of overseas operations and financing activities. Exchange rate fluctuations could significantly impact earnings and net equity because of invoicing in foreign currencies, expenditure in foreign currencies, foreign currency borrowings and translation of financial statements of overseas subsidiaries into Indian rupees. The Company has a defined foreign exchange risk management framework to manage these risks excluding translation risks.

New technologies' impact on pharma: An ongoing issue for the pharmaceutical industry is how new technologies, particularly digital-related technologies, will impact drug development and commercialization. The Company reports emerging technologies in healthcare as a whole, such as artificial intelligence, 3D printing and their impacts on business models, operations, workforce needs and cyber security risks as well as the positive impact of a digitized supply chain in reducing manufacturing costs.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

The Company has received GMP certificate on Form 25 & 28 dated 25-07-2017 for manufacturing for sale or distribution of Bulk Drugs (APIs) formulations, under the provisions of Schedule 'M' of Drugs & Cosmetic Rules, 1945.

During the year under review, manufacturing operation has been started, and practices for manufacturing, Research & Development (R&D) segment of the organization, were followed at the plant located at Village Bhondsi, Tehsil Sohna, Distt. Gurgaon, Haryana -122102.

OUTLOOK

The Company has commenced building new formulations and APIs manufacturing facility and the capacities are built in anticipation of demands.

Government Initiatives:

The Government of India unveiled 'Pharma Vision 2020' aimed at making India a global leader in end-to-end drug manufacture. Approval time for new facilities has been reduced to boost investments.

The government introduced mechanisms such as the Drug Price Control Order and the National Pharmaceutical Pricing Authority to deal with the issue of affordability and availability of medicines.

Union Minister of Chemicals and Petrochemicals, has announced setting up of chemical hubs across the country, early environment clearances in existing clusters, adequate infrastructure, and establishment of a Central Institute of Chemical Engineering and Technology.

GST is effective from 01st July, 2017, and would merge all significant taxes currently applicable to the Company's business operations (except taxes relating to profit/income) into a single tax. While this is expected to bring in greater transparency across all the economic activities and reduce multiple tax levies and administration, there is likely to be a significant short-term impact on the operations of the Company, on account of lack of clarity and differences in interpretations by various stakeholders.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company's internal control framework is designed specifically to ensure effectiveness and efficiency of operations, reliability of financial reporting and compliance of laws and regulations. A proper and extensive

system of internal control is practiced by the Company, to ensure that all its assets are safeguarded and protected, and that transactions are authorized, recorded and reported properly.

Internal Audit and control system evaluates adequacy of internal controls, adherence of processes and procedures, compliances of regulatory & legal requirements. The Internal Audit programme is periodically reviewed by Audit Committee in order to keep preventive checks on compliance risks. The Company is also following procedures in all its departments with special emphasis on manufacturing and quality assurance activities.

FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The sale of manufactured goods done by company is 5886.30 lacs for the year 2017-18 in comparison 48.50 lacs for the year 2016-17.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES/INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED

In the context of people employed, there have been increase 28% in workforce employed during the financial year 2017-18 as compared to the previous year when there was change in management of the Company viz-a-vis a new set of Directors was appointed.

CERTIFICATE PURSUANT TO REGULATION 17(8) OF THE SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015.

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Laurel Organics Limited
(CIN: U63002DL1999PLC101942)
Village Bhondsi, Tehsil Sohna
Distt. Gurgaon, Haryana-122102

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Laurel Organics Limited** (hereinafter called "**the Company**"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on the verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also on the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended 31st March, 2018, complied with all the statutory provisions listed hereunder and also that the Company has proper board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended 31st March, 2018 according to the provisions of:

- i. The Companies Act, 2013 ("the Act") and the rules made thereunder;
- ii. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder.
- iii. The Depositories Act, 1996 and the Regulations and bye-laws framed thereunder to the extent of Regulation 55A.
- iv. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings - Not applicable to the Company during the audit period.
- v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

INDEPENDENT AUDITOR'S REPORT

To

**The Members,
M/s Laurel Organics Limited**

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of Laurel Organics Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Emphasis of Matter

We draw attention to Note No 39 and 40 regarding Arrangements of Amalgamation ("the scheme") of Kimia Biosciences Ltd. (the Holding Company) with the Company with effect from appointed date April 01, 2016, which is pending for approval from National Company Law Tribunal ("NCLT"). Therefore, no effect of the scheme has been given in financial statements and consequent to this, interest Rs 154.64 Lakhs (including for previous Rs 40.11 Lakhs) on unsecured borrowings received from the Holding Company has not been accounted for.

Our opinion is not modified in respect of the above matter.

Report on Other Legal and Regulatory Requirements

As required by Section 143 (3) of the Act, we report that:

- As required by the Companies' (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure-A statements on the matters specified in the paragraphs 3 and 4 of the Order, to the extent applicable.
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
- In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- In our opinion, the aforesaid Ind-AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the Companies (Indian Accounting Standards) Rules, 2015, as amended.
- The matters about pending effect of the scheme and non accounting of interest payable to holding company as described under the emphasis of matters paragraph above, in our opinion, shall have no adverse effect on the functioning of the Company.
- On the basis of written representations received from the directors as on 31st March'2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
- With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and
- With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - The Company does not have any pending litigations which would impact its financial position.

Annexure - B to the Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Laurel Organics Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the Ind-AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind-AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind-AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind-AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind-AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India however same needs to be further strengthened.

The financial statements of the company for the year ended 31st March 2018 were authorized for issue in accordance with a resolution of the directors on May 28, 2018.

2. Significant Accounting Policies

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

2.1 Basis of preparation

The standalone financial statements of Laurel Organics Limited ("the Company") comply in all material aspects with Indian Accounting Standards ("Ind AS") as prescribed under section 133 of the Companies Act, 2013 ("the Act"), as notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and other accounting principles generally accepted in India.

The financial statement up to year ended 31 March, 2017 were prepared in accordance with Generally Accepted Accounting Principles (GAAP) in India and complied with the applicable accounting standards prescribed in the Companies (Accounting Standards) Rules, 2014 issued by the Central Government and as per relevant provisions of the Companies Act, 2013 read together with Paragraph 7 of The Companies (Accounts) Rules, 2014.

The Company followed the provisions of Ind-AS 101 in preparing its opening Ind AS Balance Sheet as of the date of transition i.e 1st April 2016 and transitional adjustment were recognized directly through retained earnings

(Refer Note No. 36).

2.2 Basis of measurement

The financial statements have been prepared under the historical cost convention on accrual basis and the following items, which are measured on following basis on each reporting date:

- Certain financial assets and liabilities that is measured at fair value.
- Defined benefit liability/(assets): present value of defined benefit obligation less fair value of plan assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company take into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the company can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Functional and presentation currency

These financial statements are presented in Indian National Rupee ('INR'), which is the Company's functional currency. All amounts have been rounded to the nearest lakhs, unless otherwise indicated.

2.4 Use of judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual

results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Judgements

Information about the judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements have been given below:

- Classification of leases into finance and operating lease
- Classification of financial assets: assessment of business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial statements for the every period ended is included below:

- Measurement of defined benefit obligations: key actuarial assumptions;
- Recognition of deferred tax assets: availability of future taxable profit against which carry-forward tax losses can be used;
- Impairment test: key assumptions underlying recoverable amounts.
- Useful life and residual value of Property, Plant and Equipments.
- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources

2.5 Classification of Assets and Liabilities as Current and Non-Current

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset/liabilities is treated as current when it is:

- Expected to be realised/settled (liabilities) or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading
- Expected to be realised/settled within twelve months after the reporting period, or
- Cash and cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other assets/liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets/liabilities.

The operating cycle is the time between the acquisition of the assets for processing and their realisation in cash and cash equivalents.

2.6 Property, Plant and Equipment

Recognition and Measurement

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of assets comprises of purchase price and directly attributable cost of bringing the assets to working condition for its intended use including borrowing cost and incidental expenditure during construction incurred upto the date when the assets are ready to use. Capital work in progress includes cost of assets at sites, construction expenditure and interest on the funds deployed less any impairment loss, if any.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as a separate items (major components) of property, plant and equipment.

Subsequent Measurement

Subsequent expenditure is capitalised only if it is probable that there is an increase in the future economic benefits associated with the expenditure will flow to the Company.

Depreciation

Depreciation is calculated on Straight Line Method using the rates arrived at on the basis of estimated useful lives given in Schedule II of the Companies Act, 2013.

Depreciation on additions to or on disposal of assets is calculated on pro-rata basis. Leasehold land is being amortised over the period of lease tenure.

Leasehold improvements are being amortised over the period of 5 to 10 years.

Depreciation methods, useful lives and residual values are reviewed in each financial year end and changes, if any, are accounted for prospectively.

Individual assets costing below Rs. 5000 are fully depreciated in the year of purchase.

Capital work-in-progress

Expenditure incurred during the construction period, including all expenditure direct and indirect expenses, incidental and related to construction, is carried forward and on completion, the costs are allocated to the respective property, plant and equipment.

De-recognition

An item of property, plant and equipment is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between net disposal proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss.

2.7 Intangible assets

Intangible Assets acquired separately are stated at cost less accumulated amortization and impairment loss, if any. Intangible assets are amortized on straight line method basis over the estimated useful life. Estimated useful life of the Software is considered as 5 years.

Amortisation methods, useful lives and residual values are reviewed in each financial year end and changes, if any, are accounted for prospectively.

An intangible asset is de-recognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the statement of profit and loss when the asset is derecognised.

2.8 Non-current assets held for sale

Non-current assets are classified as held-for sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Such assets are generally measured at the lower of their carrying amount and fair value less costs to sell. An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Once classified as held-for-sale, intangible assets and property, plant and equipment are no longer amortised or depreciated.

2.9 Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication on impairment. If any such indication exists, then the recoverable amount of assets is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash Generating Unit (CGUs).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment loss in respect of assets other than goodwill is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised in prior years. A reversal of impairment loss is recognised immediately in the Statement of Profit & Loss.

2.10 Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction of qualifying assets are capitalised as part of the cost of such assets upto the assets are substantially ready for their intended use.

The loan origination costs directly attributable to the acquisition of borrowings (e.g. loan processing fee, upfront fee) are amortised on the basis of the Effective Interest Rate (EIR) method over the term of the loan.

All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

2.11 Foreign currency transactions

Transactions in foreign currencies are recorded by the Company entities at their respective functional currency at the exchange rates prevailing at the date of the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currency are translated to the functional currency at the exchange rates prevailing at the reporting date

Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss with the exception of the following:

- exchange differences on foreign currency borrowings included in the borrowing cost when they are regarded as an adjustment to interest costs on those foreign currency borrowings;

Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates at the date of initial transactions. Non-monetary items measure at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

2.12 Employee benefits

Short term employee benefits

Short-term employee benefits are expensed in the year in which the related services are provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

Employee benefits in the form of Provident Fund are defined as contribution plan and charged as expenses during the period in which the employees perform the services.

Defined benefit plans

For defined benefit retirement, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds.

The effect of the remeasurement changes (comprising actuarial gains and losses) to the asset ceiling (if applicable) and the return on plan assets (excluding interest)), is reflected in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in other equity and will not be reclassified to the statement of profit and loss. Past service cost is recognised in the statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in the statement of profit and loss in the line item employee benefits expense.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Other long-term employee benefits

The company has long term employment benefit plans i.e. accumulated leave. Accumulated leave is encashed to eligible employees at the time of retirement. The liability for accumulated leave, which is a defined benefit scheme, is provided based on actuarial valuation as at the Balance Sheet date, based on Projected Unit Credit Method, carried out by an independent actuary.

2.13 Revenue Recognition

The Company recognises revenue from sale of goods when;

- i) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- ii) the amount of revenue can be measured reliably;
- iii) it is probable that the economic benefits associated with the transaction will flow to the Company; and
- iv) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue (other than sale of goods) is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Claim on insurance companies, interest and others, where quantum of accrual cannot be ascertained with reasonable certainty, are accounted for on acceptance basis.

Revenue represents net value of goods and services provided to customers after deducting for certain incentives including, but not limited to discounts, volume rebates, incentive programs etc.

Interest income are recognised on an accrual basis using the effective interest method.

2.14 Inventories

Inventories are valued at lower of cost and net realisable value except waste/scrap which is valued at net realisable value. Cost of finished goods and stock in process is determined by taking cost of purchases, material consumed, labour and related overheads. Cost of raw materials and stores & spare parts is computed on weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and to make the sale. Material and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost.

2.15 Provisions, Contingent Liabilities and Contingent Assets

Bases on the best estimate provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable ("more likely than not") that it is required to settle the obligation, and a reliable estimate can be made of the amount of the obligation at reporting date.

A contingent liability is a possible obligation that arises from a past event, with the resolution of the contingency dependent on uncertain future events, or a present obligation where no outflow is probable. Major contingent liabilities are disclosed in the financial statements unless the possibility of an outflow of economic resources is remote.

Contingent assets are not recognized in the financial statements but disclosed, where an inflow of economic benefit is probable.

2.16 Measurement of fair value

a) Financial instruments

The estimated fair value of the Company's financial instruments is based on market prices and valuation techniques. Valuations are made with the objective to include relevant factors that market participants would consider in setting a price, and to apply accepted economic and financial methodologies for the pricing of financial instruments. References for less active markets are carefully reviewed to establish relevant and comparable data.

2.17 Financial instruments

Financial Assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Classifications

The company classifies its financial assets as subsequently measured at either amortised cost or fair value depending on the company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Financial assets at amortised cost

A financial asset is measured at amortised cost only if both of the following conditions are met:

- it is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate ('EIR') method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Financial assets at fair value through Other Comprehensive Income (FVOCI)

Financial assets with contractual cash flow characteristics that are solely payments of principal and interest and held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets are classified to be measured at FVOCI.

Financial assets at fair value through profit and loss (FVTPL)

Any Financial assets, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL.

In addition, the company may elect to classify a Financial assets, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity Instruments

All equity instruments in scope of Ind AS 109 are measured at fair value. On initial recognition an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

All other Financial Instruments are classified as measured at FVTPL.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognize the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

With regard to trade receivable, the Company applies the simplified approach as permitted by Ind AS 109, Financial Instruments, which requires expected lifetime losses to be recognised from the initial recognition of the trade receivables.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, amortised cost, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of amortised cost, net of directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities measured at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

Gains or losses on liabilities held for trading are recognised in the profit.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

Derecognition of financial liabilities

The company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

2.18 Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in Other Comprehensive Income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax assets and liabilities are offset only if, the Company:

- a) Has a legally enforceable right to set off the recognised amounts; and
- b) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date.

Minimum Alternative Tax (MAT) is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of credit to the statement of profit and loss and included in deferred tax assets. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

2.19 Leases

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the percentage value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Lease in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to statement of profit and loss on a straight line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

2.20 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

2.21 Standard issued but not yet effective

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

Standards issued but not yet effective

On March 28, 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2018, notifying amendments to Ind AS 21, 'The Effects of Changes in Foreign Exchange Rates' and Ind AS 115, 'Revenue from Contracts with Customers.' The amendments are applicable to the Company from April 1, 2018.

(a) Amendment to Ind AS 21

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Company is evaluating the requirements of the amendment and the effect on the financial statements will be given in due course.

(b) Amendment to Ind AS 115

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The standard permits two possible methods of transition:

- Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach).

The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018. The Company is evaluating the requirements of the amendment and the effect on the financial statements will be given in due course.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

33. Employee benefits

The Company contributes to the following post-employment defined benefit plans in India.

(i) Defined Contribution Plans:

The Company makes contributions towards provident fund to a defined contribution retirement benefit plan for qualifying employees. Under the plan, the Company is required to contribute a specified percentage of payroll cost to the retirement benefit plan to fund the benefits. During the year the Company has contributed to Government Provident Fund Rs. 14.71 (Previous year Rs. 3.01).

(ii) Defined Benefit Plan:

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at March 31, 2018. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

A. Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

	March 31, 2018	March 31, 2017	April 1, 2016

Balance as at 31 March	33.64	-	33.64	30.08	-	30.08

C. Plan assets

The Company has no Plan assets.

D. Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

Discount rate	7.73%	7.54%	8.00%
Expected rate of future salary increase	5.50%	5.50%	5.50%
Mortality	100% of IALM (2006 - 08)		

Assumptions regarding future mortality have been based on published statistics and mortality tables.

E. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	March 31, 2018		March 31, 2017	
	Increase	Decrease	Increase	Decrease
Change in Discount rate (0.5% movement)	(1.69)	1.82	(1.63)	1.76
Change in Salary increase (0.5% movement)	1.85	(1.73)	1.79	(1.67)

Sensitivities due to mortality and withdrawals are insignificant, hence ignored. Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

F. Description of Risk Exposures:

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such Company is exposed to various risks as follow -

A) Salary Increases- Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.

B) Discount Rate: Reduction in discount rate in subsequent valuations can increase the plan's liability.

The management considers that the carrying amount of financial assets and financial liabilities carried as amortised cost approximates their fair value.

II. Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

- (a) recognised and measured at fair value and
- (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

There are no transfers between level 1 and level 2 during the year

II. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk;
- liquidity risk; and
- market risk

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the processes to ensure that executive management controls risks through the mechanism of property defined framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed by the board annually to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

The carrying amount of financial assets represents the maximum credit exposure. The Company monitor credit risk very closely both in domestic and export market. The Management impact analysis shows credit risk and impact assessment as low.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company Management has established policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes market check, industry feedback and past financials, if they are available.

The Company has started manufacturing facility in current year. The company is dealing with the customers having good credit worthiness, and no impairment loss has been recognized against these customers. In monitoring customer credit risk, customers are reviewed according to their credit characteristics, including whether they are an individual or a legal entity, their geographic location, industry and existence of previous financial difficulties.

Ageing of Trade Receivables (net of loss allowances) are as under:-

Particulars	Less than 6 months	6-12 months	More than 12 months	Total
As at March 31, 2018	2,505.30	5.00	5.97	2,516.27
As at March 31, 2017	7.54	-	-	7.54
As at April 1, 2016	9.10	-	-	9.10

A default on a financial asset is when counterparty fails to make payments within 90 days when they fall due.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected future cash flows. This is generally carried out at corporate office of the Company. These limits vary by location to take into account requirement, future cash flow and the liquidity in which the entity operates. In addition, the Company's liquidity management strategy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

(a) Financing arrangements

During the year, the banker of the Company has sanctioned total working capital exposure of Rs. 600 (approx). which is subject to the continuance of satisfactory credit ratings, the bank loan facilities may be drawn at any time in indian rupee and have an average maturity within a year. The banker of the Company has also sanctioned term loan and other facilities of Rs. 1365 (approx).

The inflows/(outflows) disclosed in the above table represent the contractual undiscounted cash flows relating to derivative financial liabilities held for risk management purposes and which are not usually closed out before contractual maturity.

The interest payments on variable interest rate loans in the table above reflect market forward interest rates at the reporting date and these amounts may change as market interest rates change.

iv. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Company uses derivatives like forward contracts to manage market risks on account of foreign exchange and various debt instruments on account of interest rates. All such transactions are carried out within the guidelines set by the Risk Management Committee. Generally, the Company seeks to apply hedge accounting to manage volatility in profit or loss.

v. Currency risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency ("Rs."). The risk is measured through a forecast of highly probable foreign currency cash flows.

The Currency risks related to the principal amounts of the Company's foreign currency receivables and payables, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows

	As at March 31, 2018		As at March 31, 2017		As at April 1, 2016	
	Trade receivables	Trade Payables	Trade receivables	Trade Payables	Trade receivables	Trade Payables
In USD	14.00	748.48	-	-	-	-
Total financial exposure	14.00	748.48	-	-	-	-

Interest rate risk

In view of pending amalgamation (Refer Note-39), interest on unsecured borrowings received from holding company and others have not been accounted in the books.

The Company's interest rate risk arises from borrowings with fixed rates, which does not expose to cash flow interest rate risk.

Currently the Company's borrowings are within acceptable risk levels, as determined by the management, hence the Company has not taken any swaps to hedge the interest rate risk.

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

36. First Time Adoption of Ind AS

As stated in note 2, these are the Company's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in note 2 have been applied in preparing the financial statements for the year ended March 31, 2018, the comparative information presented in these financial statements for the year ended March 31, 2017 and in the preparation of an opening Ind AS statement of financial position at April 1, 2016 (the Company's date of transition). In preparing its opening Ind AS statement of financial position, the Company has adjusted amounts reported previously in financial statements prepared in accordance with Indian GAAP (previous GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and the notes that accompany the tables.

Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A. Ind AS optional exemptions

i. Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets.

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

ii. Lease

Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provide an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS, except where the effect is expected to be not material. The Company has elected this exemption for such contracts / arrangements.

B. Ind AS mandatory exceptions

i. Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at April 1, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for Impairment of financial assets based on expected credit loss model in accordance with Ind AS at the date of transition as these were not required under previous GAAP.

ii. Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

C. Reconciliations between previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliations from previous GAAP to Ind AS.

*The previous GAAP figures have been reclassified to conform to Ind AS presentation requirements for the purposes of this note.

D. Notes to first-time adoption:

1. Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of statement of profit and loss. Under the previous GAAP, these remeasurements were forming part of the statement of profit and loss for the year. As a result of this change, the profit for the year ended March 31, 2017 increased by Rs. 1.95 (Net of tax Rs. 1.31) There is no impact on the total equity as at 31 March 2017.

2. Deferred Tax

Under previous GAAP, deferred tax was prepared using income statement approach. Under Ind AS, company has prepared deferred tax using balance sheet approach. Also, deferred tax have been recognised on the adjustments made on transition to Ind AS.

3. Retained earnings

Retained earnings as at April 1, 2016 has been adjusted consequent to the above Ind AS transition adjustments.

4. Other comprehensive income

Under Ind AS, all items of income and expense recognised in a period should be included in the statement of profit and loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans and tax thereon. The concept of other comprehensive income did not exist under previous GAAP.

5. Redeemable Preference shares

Redeemable Preference shares have been discounted using 6.67% (with firmware data 6.48%) rate of interest. Present value of redeemable Preference shares has been unwinded over the period of preference shares and interest expenses has been booked.

37. Balances of certain trade receivables, advances, trade payables and other liabilities are in the process of confirmation and/or reconciliation.

38. Segment Reporting

According to Ind AS 108, identification of operating segments is based on Chief Operating Decision Maker (CODM) approach for making decisions about allocating resources to the segment and assessing its performance. The business activity of the company falls within one broad business segment viz.

Laurel Organics Ltd.

"Pharmaceuticals" and substantially sale of the product is within the country. The Gross income and profit from the other segment is below the norms prescribed in Ind AS 108. Hence, the disclosure requirement of Ind AS 108 of 'Segment Reporting' is not considered applicable.

39. The Board of Directors of the Company has approved a Scheme of Arrangement between the Company and the Holding Company, Kimia Biosciences Ltd. (Transferor Company) and their respective shareholders ("the Scheme") for the amalgamation under section 391 to 394 of the Companies Act, 1956 or any corresponding provisions of the Companies Act, 2013 with effect from appointed date i.e. 1st April 2016. The Scheme has been filed before National Company Law Tribunal for necessary approval. The Scheme will be made effective by the Board of Directors of the Company upon receipt of the approvals from the National Company Law Tribunal. Pending approval of the scheme, no accounting treatment under Ind AS 103 ("Business Combination") has been given.
40. In view of pending approval of proposed amalgamation as refer note 39, interest on unsecured borrowings received from M/s Kimia Bioscience Ltd. (Holding and Transferor Company) Rs 114.53 (previous Rs 40.11) has not been accounted for.
41. Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders. The following table summarises the capital of the Company :
