CHAIRMAN PERSPECTIVE

Dear Shareholders,

A company is shaped by its purpose and for us that quite simply is 'Wellness for our consumers'. It is with this overarching purpose that we have journeyed through the years. While our offerings have expanded and our approaches to achieve our goals have become multi-fold, the very core of why we are in this realm remains a singular one - to help our consumers' experience the freedom of choices that can lead them to wellness and good health. If there is one overriding theme that defines our current world, it is that it is suffused with uncertainty. The placid and the predictable are behind us as each new day brings new inputs and new events that derail the carefully-crafted models we have constructed of the world around us. The cocktail of inflation, interest rates, geopolitics, war, demand volatility, supply chain dislocations, the shift from efficiency to resilience and security, all stirring quickly and without warning, is what's before us. In any week, we may oscillate from caution to optimism and back to caution based on the news of the day. Such times of intense uncertainty, great short-term pressure, and crunched resources require that companies must become better, more efficient in their ability to be resilient in the present while also securing their future growth. This is easier said than done. The extreme volatility that surrounds us creates so many probable future states, that it simply isn't prudent for businesses to plan to succeed in any one anticipated future scenario. Instead, we need to develop the flexibility to be able to avoid limiting choices, reduce concentration risk, quickly adapt, and learn to thrive in any new reality.

The era of optionality is upon us.

Even as we work on our growth strategy, we realise that embracing sustainability is key to a healthy future for all our stakeholders. The challenges posed by climate change, lack of access, changing patterns of disease burden and inequity need urgent action from us as a collective. We have always viewed our work in the context of addressing societal needs – where we are uniquely positioned to make positive change and impact. This led us to become an early adopter of Environment Social Governance (ESG) actions as well as voluntary disclosures on sustainability. Over the years, our efforts in various aspects of ESG such as waste minimisation and management, emissions, investment in people development and other areas saw industry-leading initiatives such as zero liquid discharge, zero waste to landfills and Self-Managed Teams. However, there is a lot more to be done and such recognitions only serve to make our commitment and resolve stronger. This year we refreshed our sustainability and ESG goals for the next decade, while making them central to our purpose and integral to our strategy.

Top priorities for FY 2024

- Sustainable and profitable business growth
- Supply chain continuity along with focus on inventory optimization
- Continued focus on business and operational excellence
- Increased investments in IT to facilitate business and digital transformation
- Focus on improving overall return ratios
- Sustained efforts on reducing emissions, specific water consumption and environment impact
- Entering into Contract Drug Manufacturing operations.

Our vision - to be the clear choice

Our vision is to become an integrated global pharmaceutical company adhering to high standards of quality and compliance

Our vision - to be the clear choice

Our vision is to become an integrated global pharmaceutical company adhering to high standards of quality and compliance

We are fortunate to have a young and diverse team shaping our future. Equally important is the fact that we want to build a long-lasting relationship with our employees. For that reason, diversity and inclusion remain very important issues for us. We constantly aim to expand the diversity of thought, background, experience, and gender of our employees. We are committed to nurturing talent, building careers, inspiring people so they can contribute their best and by doing all of these build a strong organisation.

Our employees are our key assets. Over the last three years, they have worked hard to ensure business continuity despite the multiple pandemic-induced disruptions, thus enabling us to maintain supplies of our products in various markets while ensuring overall productivity and without compromising on safety protocols. We are grateful to our Board of Directors for their guidance and support.

Your support to us as a shareholder is of vital importance, and we hope that you will continue to repose your confidence in us in the future as well.

FY23 proved to be a significant and eventful year for Kimia, as it marked our first complete year of business after the pandemic. Despite global uncertainties and the potential threat of a recession in major economies, India's strong fundamentals and supportive policies enabled us to showcase resilience and achieve widespread economic growth.

Mr. Sameer Goel
Chairman & Managing Director

The objective of R&D program is to research and develop new improved drugs with the goal of addressing unmet patient needs with more meticulous resources and to establish a robust portfolio for a new generation of treatments. Kimia is committed to do significant investments in drug research and development in order to produce effective, safe and affordable medicines.

The team at R&D involves people with high skills and expertise having versatile Pharmaceutical exposures and are determined to make Kimia R&D as an advance Centre for Research.

The Research & Development Centre, having state of Art Facility with modern & well equipped machinery is approved by Department of Scientific and Industrial Research (DSIR) vide Registration No. TU/IV-RD/4410/2021 dated 06.08.2021.

R&D at Kimia has evolved much stronger and larger with increased infrastructure during the year 2022-2023 and has forged ahead in development of innovative technologies, cost improvements in existing products & indigenous development of key Raw materials.

The R&D strength has increased significantly to more than 60 scientists and has commercialized more than 25 products while 9-10 molecules are under development which+63 is to be to be commercialized in next 6-12 months.

The under development molecules includes among others, APIXABAN, EMPAGLIFLOZIN, GLIMEPIRIDE, LINAGLIPTIN, MIRABEGRON, MONTELUKAST SODIUM, PHENYLEPHRINE.HCl, TICAGRELOR, VORTIOXETINE HBr, ELTROMBOPAG, AVATROMBOPAG, CLASCOTERONE, SACUBITRIL VALSARTAN, ISOTRETINOIN, SACUBITRIL SODIUM, IMEGLIMIN, DELAFLOXACIN MAGLUMINE, BENIDIPINE HCL (DMDC), RIFAXIMIN (ALFA FORM), ROXADUSTAT and some of the key raw materials which are currently being imported from other countries outside India so as to avoid dependency on them and save foreign exchange.

Another area of advancement is induction of Intellectual property team at the R&D in addition to already existing Chemical Research development, Analytical development, and Regulatory and Quality assurance teams making a complete set of teams needed to run the R&D Centre. The Intellectual property team has filed 9 patents and few more under process of filing for Kimia Biosciences Limited.

RESOLVED FURTHER THAT the approval of Company be accorded to the Board of Directors of the Company (including any committee thereof) to do all such acts, deeds, matters and things and to take all such steps as may be required in this connection including seeking all necessary approvals to give effect to this Resolution and to settle any questions, difficulties and doubts that may arise in this regard."

**By the Order of the Board of Directors
For Kimia Biosciences Limited
Sd/-
Sameer Goel
(Chairman & Managing Director)
(DIN: 00161786)**

**Date: New Delhi
Place: 05.09.2023**

Notes:

1. The Explanatory Statement pursuant to Section 102 (1) of the Companies Act, 2013 ("the Act") read with Rule 22 of the Companies (Management and Administration) Rules, 2014 ("the Rules"), as amended, setting out the material facts concerning the said Resolutions and the reasons thereof is annexed hereto and forms part of this Notice ("Notice").
2. In view of the massive outbreak of the COVID-19 pandemic, social distancing is a norm to be followed and pursuant to the Circular No. 14/2020 dated April 08, 2020, Circular No.17/2020 dated April 13, 2020 issued by the Ministry of Corporate Affairs followed by Circular No. 20/2020 dated May 05, 2020 and Circular No. 02/2021 dated January 13, 2021 and all other relevant circulars issued from time to time, physical attendance of the Members to the AGM venue is not required and general meeting be held through video conferencing (VC) or other audio visual means (OAVM). Hence, Members can attend and participate in the ensuing AGM through VC/OAVM.
3. Pursuant to the Circular No. 14/2020 dated April 08, 2020, issued by the Ministry of Corporate Affairs, the facility to appoint proxy to attend and cast vote for the members is not available for this AGM. However, the Body Corporates are entitled to appoint authorised representatives to attend the AGM through VC/OAVM and participate there at and cast their votes through e-voting.
4. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available for 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
5. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Companies Act, 2013.
6. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and the Circulars issued by the Ministry of Corporate Affairs dated April 08, 2020, April 13, 2020 and May 05, 2020 the Company is providing facility of remote e-Voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with National Securities Depository Limited (NSDL) for facilitating voting through electronic means, as the authorized agency. The facility of casting votes by a member using remote e-Voting system as well as venue voting on the date of the AGM will be provided by NSDL.
7. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM has been uploaded on the website of the Company at www.kimiabiosciences.com. The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited at www.bseindia.com and the AGM Notice is also available on the website of NSDL (agency for providing the Remote e-Voting facility) i.e. www.evoting.nsdl.com.
8. AGM has been convened through VC/OAVM in compliance with applicable provisions of the Companies Act, 2013 read with MCA Circular No. 14/2020 dated April 08, 2020 and MCA Circular No. 17/2020 dated April 13, 2020, MCA Circular No. 20/2020 dated May 05, 2020 and MCA Circular No. 2/2021 dated January 13, 2021.

THE INSTRUCTIONS FOR MEMBERS FOR REMOTE E-VOTING AND JOINING GENERAL MEETING ARE AS UNDER:-

The remote e-voting period begins on Wednesday 27th September 2023 at 09:00 A.M. (IST) and ends on Friday 29th September 2023 at 05:00 P.M. (IST). The remote e-voting module shall be disabled by NSDL for voting thereafter. The Members, whose names appear in the Register of Members / Beneficial Owners as on the record date (cut-off date) i.e. Saturday 23rd September 2023 may cast their vote electronically. The voting right of shareholders shall be in proportion to their share in the paid-up equity share capital of the Company as on the cut-off date, being Saturday 23rd September 2023.

How do I vote electronically using NSDL e-Voting system?

The way to vote electronically on NSDL e-Voting system consists of "Two Steps" which are mentioned below:

Step 1: Access to NSDL e-Voting system

A) Login method for e-Voting and joining virtual meeting for Individual shareholders holding securities in demat mode

In terms of SEBI circular dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Login method for Individual shareholders holding securities in demat mode is given below:

Individual Shareholders holding securities in demat mode with CDSL	Members facing any technical issue in login can contact CDSL helpdesk by sending a request at helpdesk.evoting@cdslindia.com or contact at toll free no. 1800 22 55 33

B) Login Method for e-Voting and joining virtual meeting for shareholders other than Individual shareholders holding securities in demat mode and shareholders holding securities in physical mode.

How to Log-in to NSDL e-Voting website?

- Visit the e-Voting website of NSDL. Open web browser by typing the following URL: <https://www.evoting.nsdl.com/> either on a Personal Computer or on a mobile.
- Once the home page of e-Voting system is launched, click on the icon "Login" which is available under 'Shareholder/Member' section.
- A new screen will open. You will have to enter your User ID, your Password/OTP and a Verification Code as shown on the screen.
Alternatively, if you are registered for NSDL eservices i.e. IDEAS, you can log-in at <https://eservices.nsdl.com/> with your existing IDEAS login. Once you log-in to NSDL eservices after using your log-in credentials, click on e-Voting and you can proceed to Step 2 i.e. Cast your vote electronically.
- Your User ID details are given below :

Manner of holding shares i.e. Demat (NSDL or CDSL) or Physical	Your User ID is:
a) For Members who hold shares in demat account with NSDL.	8 Character DP ID followed by 8 Digit Client ID For example if your DP ID is IN300*** and Client ID is 12***** then your user ID is IN300***12*****.
b) For Members who hold shares in demat account with CDSL.	16 Digit Beneficiary ID For example if your Beneficiary ID is 12***** then your user ID is 12*****.
c) For Members holding shares in Physical Form.	EVEN Number followed by Folio Number registered with the company For example if folio number is 001*** and EVEN is 101456 then user ID is 101456001***

- Password details for shareholders other than Individual shareholders are given below:
 - If you are already registered for e-Voting, then you can use your existing password to login and cast your vote.
 - If you are using NSDL e-Voting system for the first time, you will need to retrieve the 'initial password' which was communicated to you. Once you retrieve your 'initial password', you need to enter the 'initial password' and the system will force you to change your password.
 - How to retrieve your 'initial password'?
 - If your email ID is registered in your demat account or with the company, your 'initial password' is communicated to you on your email ID. Trace the email sent to you from NSDL from your mailbox. Open the email and open the attachment i.e. a .pdf file. Open the .pdf file. The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains your 'User ID' and your 'initial password'.
 - If your email ID is not registered, please follow steps mentioned below in **process for those shareholders whose email ids are not registered**.
- If you are unable to retrieve or have not received the "Initial password" or have forgotten your password:
 - Click on "Forgot User Details/Password?" (If you are holding shares in your demat account with NSDL or CDSL) option available on www.evoting.nsdl.com.
 - [Physical User Reset Password?](#) (If you are holding shares in physical mode) option available on www.evoting.nsdl.com.
 - If you are still unable to get the password by aforesaid two options, you can send a request at evoting@nsdl.co.in mentioning your demat account number/folio number, your PAN, your name and your registered address etc.
 - Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.
- After entering your password, tick on Agree to "Terms and Conditions" by selecting on the check box.
- Now, you will have to click on "Login" button.
- After you click on the "Login" button, Home page of e-Voting will open.

Step 2: Cast your vote electronically and join General Meeting on NSDL e-Voting system.

How to cast your vote electronically and join General Meeting on NSDL e-Voting system?

1. After successful login at Step 1, you will be able to see all the companies "EVEN" in which you are holding shares and whose voting cycle and General Meeting is in active status.
2. Select "EVEN" of company for which you wish to cast your vote during the remote e-Voting period and casting your vote during the General Meeting. For joining virtual meeting, you need to click on "VC/OAVM" link placed under "Join Meeting".
3. Now you are ready for e-Voting as the Voting page opens.
4. Cast your vote by selecting appropriate options i.e. assent or dissent, verify/modify the number of shares for which you wish to cast your vote and click on "Submit" and also "Confirm" when prompted.
5. Upon confirmation, the message "Vote cast successfully" will be displayed.
6. You can also take the printout of the votes cast by you by clicking on the print option on the confirmation page.
7. Once you confirm your vote on the resolution, you will not be allowed to modify your vote.

General Guidelines for shareholders

1. Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) are required to send scanned copy (PDF/JPG Format) of the relevant Board Resolution/ Authority letter etc. with attested specimen signature of the duly authorized signatory(ies) who are authorized to vote, to the Scrutinizer by e-mail to gr2advisory@gmail.com with a copy marked to evoting@nsdl.co.in. Institutional shareholders (i.e. other than individuals, HUF, NRI etc.) can also upload their Board Resolution / Power of Attorney / Authority Letter etc. by clicking on "Upload Board Resolution / Authority Letter" displayed under "e-Voting" tab in their login.
2. It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential. Login to the e-voting website will be disabled upon five unsuccessful attempts to key in the correct password. In such an event, you will need to go through the "[Forgot User Details/Password?](#)" or "[Physical User Reset Password?](#)" option available on www.evoting.nsdl.com to reset the password.
3. In case of any queries, you may refer the Frequently Asked Questions (FAQs) for Shareholders and e-voting user manual for Shareholders available at the download section of www.evoting.nsdl.com or call on.: 022 - 4886 7000 and 022 - 2499 7000 or send a request to Ms. Pallavi Mhatre Senior Manager at evoting@nsdl.co.in

Process for those shareholders whose email ids are not registered with the depositories for procuring user id and password and registration of e mail ids for e-voting for the resolutions set out in this notice:

1. In case shares are held in physical mode please provide Folio No., Name of shareholder, scanned copy of the share certificate (front and back), PAN (self attested scanned copy of PAN card), AADHAR (self attested scanned copy of Aadhar Card) by email to compliance.kimia@gmail.com.
2. In case shares are held in demat mode, please provide DPID-CLID (16 digit DPID + CLID or 16 digit beneficiary ID), Name, client master or copy of Consolidated Account statement, PAN (self attested scanned copy of PAN card), AADHAR (self attested scanned copy of Aadhar Card) to compliance.kimia@gmail.com. If you are an Individual shareholders holding securities in demat mode, you are requested to refer to the login method explained at **step 1 (A)** i.e. [Login method for e-Voting and joining virtual meeting for Individual shareholders holding securities in demat mode](#).
3. Alternatively shareholder/members may send a request to evoting@nsdl.co.in for procuring user id and password for e-voting by providing above mentioned documents.
4. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Global Pharma Industry Outlook & Emerging Trends:

The pharmaceutical industry has exhibited remarkable agility in responding to the COVID-19 pandemic by developing highly effective vaccines and treatments at unprecedented speed. However, despite a temporary slowdown in global medicine use in 2022, the industry is expected to return to pre-pandemic growth rates by 2024.

The industry's future growth is subject to various factors, such as viral variants, vaccine distribution, and economic and geopolitical uncertainties. Over the next five years, the US market is expected to grow at 1 to 2% CAGR on a net price basis due to the Inflation Reduction Act's conservative outlook, while Europe is expected to focus on generics and biosimilars, leading to increased pressure on the pricing of novel medicines. The Asia-Pacific region is predicted to experience steady growth following the pandemic, but China's growth will likely slow down due to pricing pressures.

Expanding healthcare access in most countries and increased spending on new medicines will propel growth in these markets. However, the off-patent branded medicines and low pricing of generic medicines may impact growth.

According to IQVIA, the pharmerging markets are expected to grow 5-8% in spending through 2027. On the other hand, lower-income countries are expected to experience a CAGR of 4.5-7.5% in spending growth, with projected spending of US\$29-33 billion by 2027, up from US\$23.2 billion in 2022, the same report said.

Projected growth of world pharmaceutical market by regional groups over the period 2023 to 2027

Indian Pharma Industry:

India is the largest provider of generic drugs globally and is known for its affordable vaccines and generic medications. The Indian Pharmaceutical industry is currently ranked third in pharmaceutical production by volume after evolving over time into a thriving industry growing at a CAGR of 9.43% since the past nine years. Generic drugs, over-the-counter medications, bulk drugs, vaccines, contract research & manufacturing, biosimilars, and biologics are some of the major segments of the Indian pharma industry. India has the most number of pharmaceutical manufacturing facilities that are in compliance with the US Food and Drug Administration (USFDA) and has 500 API producers that make for around 8% of the worldwide API market.

India's economy has received a boost from various factors, such as the presence of a young and tech-savvy population and a strong emphasis on innovation. Despite facing headwinds from global geopolitical events, the economy is anticipated to grow 6.3% for the current fiscal year FY24, as per the World Bank. The government has taken steps to improve healthcare access, with initiatives like the Ayushman Bharat programme, which aims to provide free healthcare insurance coverage to more than 500 million people, and the National Health Stack, which aims to create a unified digital healthcare system across India. These measures are expected to fuel the economy's growth and contribute to better health outcomes for the population.

As per the World Bank's latest India Development Report, India remains one of the fastest growing major economies in the world, despite challenging global environment. As per the National Statistical Office (NSO), the country's real GDP growth during FY23 is estimated at 7.2%, as compared to 9.1% in FY22.

The recent economic growth in India can be attributed to the resurgence of private consumption, which has replaced export stimulus as the primary driver of growth. With near-universal vaccination coverage, consumer sentiment has improved, resulting in a surge in spending on contact-based services such as restaurants, hotels, shopping malls, and cinemas. Production activity and capacity utilisation growth have been observed across various sectors. Moreover, the Indian government's significant increase in capital expenditure has played a crucial role in driving the economy forward.

In the first eight months of FY23, the capital expenditure of the central government increased by 63.4%. The strengthening of corporate balance sheets and increased credit financing has further contributed to a sustained increase in private Capex, positively impacting the economy.

The Indian pharmaceutical industry contributes significantly to public health improvement and economic growth of the country

Internal Control systems

The Company has an adequate system of internal controls commensurate with the nature, size and complexity of its manufacturing, finance and marketing operations including controls over financial reporting. The company has adopted well laid down processes and procedures, encapsulating all its operations, financial and compliance functions, for efficient and orderly conduct of its business, adherence to the Company Policies, safeguarding its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records and timely preparation of reliable financial information and compliance with applicable statutes and rules and regulations thereunder. Appropriate review and control mechanisms are in place for ensuring the internal control systems are operating effectively. The internal control system is supported by qualified personnel and a continuous program of internal audit. The prime objective of such audits is to test the adequacy and effectiveness of all internal control systems laid down by the management and to suggest improvements, robustness of internal processes, policies and accounting procedures, compliance with laws and regulations. For this purpose, a yearly audit plan will be made with the approval of the Audit Committee of the Board of Directors. The internal audit function, reports directly to the Audit Committee, maintaining independence and objectivity in its function. Based on the reports of internal audit function, respective process owners carryout corrective action in their areas. The Audit Committee reviews the significant audit observations and status of rectification measures thereon regularly. The Audit committee also reviews internal controls over financial reporting and ascertain with the statutory auditors about its adequacy and effective operation. Based on its review and report of the statutory auditors, the internal financial controls during the year are adequate and operating effectively. The Company also encourages

and recognizes improvements in work practices. The Management duly considers and takes appropriate action on the recommendations made by the internal auditors, statutory auditors, and the Audit Committee.

Risk Management

Kimia lays emphasis on risk management and has an enterprise-wide approach to risk management, which lays emphasis on identifying and managing key operational and strategic risks with a dynamic business continuity plan. The Company strives to identify opportunities that enhance organisational values while managing or mitigating risks that can adversely impact its future performance through:

- Integrated process for identification, assessment and reporting
- Decentralized management of specific opportunities and risks and
- Aggregation at corporate level monitored by the Risk Management Committee with the overall direction and control by the Board.

Risk Management Process

1. Risk identification: Risks are identified through discussion with Business heads and updated risk registers.
2. Risk assessment: Evaluation of risks to determine likelihood of occurrence and its impact to prioritise risk and mitigate within tolerance limit.
3. Risk mitigation: Risk mitigation procedures involve undertaking appropriate actions by the business heads/ process owners who are accountable to mitigate risks within adequate timelines. Progress of mitigation actions are monitored and reviewed periodically.

4. Risk monitoring & reporting: Risk reports are submitted to the Risk Management Committee periodically. The assessment of key risks, analysis of exposure and potential impact are carried out periodically, presented and discussed with RMC. Periodic updates are provided to the Board highlighting key risks, their subsequent impact, and the required mitigation measures.

COST EFFICIENCY

*Access to affordable HIV treatment from India is one of the greatest success stories in medicine. India is one of the biggest suppliers of low-cost vaccines in the world. Because of the low price and high quality, Indian medicines are preferred worldwide, thereby rightly making the country the 'Pharmacy of the World'.

ECONOMIC DRIVERS

*On December 21, 2020, MoU was signed between Tata Memorial Centre of India and Vietnam National Cancer Hospital to promote exchanges in the areas of training and scientific research, health care services, collaboration in diagnosis and treatment for cancer patients.

*The total market size of the Indian Pharma Industry is expected to reach US\$ 130 billion by 2030.

POLICY SUPPORT

*Strengthening of Pharmaceutical Industry (SPI): The Ministry's scheme "Strengthening of Pharmaceutical Industry (SPI)" with a total financial outlay of US\$ 60.9 million (Rs. 500 crore) extends support required to existing pharma clusters and MSMEs across the country to improve their productivity, quality and sustainability.

*Pradhan Mantri Bhartiya Jan Aushadhi Kendras (PMBJKs): The Government has set a target to increase the number of PMBJKs to 10,500 by the end of March 2025. Product basket of PMBJP comprises of 1,451 drugs and 240 surgical instruments.

INCREASING INVESTMENT

*Up to 100%, FDI has been allowed through automatic route for Greenfield pharmaceuticals projects. For Brownfield pharmaceuticals projects, FDI allowed is up to 74% through automatic route and beyond that through government approval.

*The cumulative FDI equity inflow in the Drugs and Pharmaceuticals industry is US\$ 20.96 billion during the period April 2000-September 2023. This constitutes almost 3.35% of the total FDI inflow received across sectors.

*Indian pharma companies have a substantial share in the prescription market in the US and EU. The largest number of FDA-approved plants outside the US is in India.

Mitigation strategy

Kimia is committed to supplying the highest quality medicines to customers for promoting healthier lives. Hence, the Company strives to conform to regulatory and compliance standards to meet stringent requirements of regulators to ensure that our medicines provide best health care for the consumers. Robust quality systems & control measures are in place to ensure that the quality is ensured by process design. The Company is constantly improving compliance practices by imposing strict adherence to its code of conduct that is focused on ethics and integrity, which reduces risk of non-compliance. To drive the compliance initiatives and achieve a culture of compliance, Kimia's Senior Management has initiated a Quality Culture Excellence programme. The Company has leveraged industry expertise by engaging an US-based consulting firm to establish, train and constantly monitor Quality Culture Excellence. An organisation-wide training has been kickstarted and is currently ongoing at all levels. A powerful multi-dimensional monitoring tool to measure Quality Culture Maturity has been developed and shall be used to quantify and improve, where required, the progress of implementation of the Quality Culture Excellence initiative. The Company has a robust "Statutory compliance system/ solution" (Vision 360 Tool) for ensuring compliance with all applicable laws and it is designed to meet the compliance goals of the Company. Periodic updates to the system are made as and when there is a change in any applicable law. Quarterly compliance declarations generated electronically from the system are submitted to the compliance officer. Quarterly compliance audit is done by the transaction auditors to ensure that compliance is mapped with applicable laws. In case of any non-compliance, necessary steps are taken by the concerned functional heads for compliance. There is continuous monitoring by the QC/QA team to deliver the highest quality. The Company has

a talent pool of over scientists and analysts, who have proficiency and experience in handling complex chemistry and filing of applications with the regulatory authorities.

Human Resources

We consider employees as an integral part of our operations and we put in place appropriate compensation plans, feedback process, continuing training and upgradation of skills in their functional areas. Employee relations are affable and harmonious with safe and healthy working environment and all-round contribution and participation in the growth. The Company sincerely appreciates the hardwork and dedication of employees despite the covid-19 pandemic and working in the factories/offices complying with all covid safety measures.

Environment, health and safety

An afforestation programme at Kimia Biosciences Limited is an ongoing continual activity to provide green cover in and around company area to “Freshen Up” the surrounding environment.

Hundreds of saplings planted every year are growing into trees, providing a canopy of thick foliage all around the plant. Plant species include:

Greenery development Program: • Banyan (*Ficus benghalensis*)

- Neem (*Azadirachta indica*)
- Sacred Fig (*Ficus religiosa*)
- Ashoka (*Saraca asoca*)
- Ombu (*Phytolacca dioica*)
- Blackboard (*Alstonia scholaris*)
- Guava (*Psidium guajava*)

During FY 2022-2023, approx. 450 nos. saplings were planted.

During Financial year 2022-23 following initiatives were taken for environment protection through reduction in norms and indirectly reducing environment load.

1. Replacement of DG sets for efficiency increase
2. Replaced conventional bulb with LED lights for energy saving
3. Timer installation on street light for energy saving
4. Power factor improved by installation of capacitor and maintained the factor around 0.99.
5. All chiller lines insulated for prevention of energy loss.
6. New efficient vacuum pump replaced with old pump for power saving
7. Retrofitting of MCC panel for minimization of friction losses.
8. Watering of plants by sprinkling system to reduce the water consumption.
9. Purified water system rejects using as make up water in cooling towers for reduction of raw water uses.

10. New Boiler system installed with High efficiency
11. Heat losses arrested by implementation of insulation all around the plant
12. Optimization of Solvent Recovery Plant by modification of Steam supply line
13. Primary, secondary and Tertiary condensers installation on reactors to optimize and maximize the solvent recovery
14. Water Jet system installed for cleaning of reactors and floors to minimization of water uses

Information Technology (IT)

The Company has put in place an IT policy in order to ensure consistency, protection and security of data and IT systems to ensure smooth business processes. The systems used for information security are constantly tested, continuously updated and expanded. In addition, our employees are regularly trained on data protection and safety including secure online banking transactions. IT-related risk management exercise is conducted using appropriate protocols and tools.

Business continuity

The Company has appropriate strategies for business continuity for addressing disruptive events, of various nature, on business operations and has set up a comprehensive and proactive framework to mitigate such disruptive events by deploying available alternative solutions; and reduce their potential damages.

The production-linked incentive (PLI) scheme, a part of the Government's Atmanirbhar Bharat program, is a significant step towards boosting India's manufacturing sector and achieving self-reliance. In 2021, Government approved ₹15,000 crore PLI scheme for the pharma sector. Recently, a similar scheme has been extended to promote the production of medical devices and to strengthen the medical devices industry into a competitive, self-reliant, resilient, and innovative industry that caters to the healthcare needs of not only India but also the world. The vision is to turn India into a global leader in the manufacturing and innovation of medical devices by achieving a 10-12% share in the expanding global market over the next 25 years. It is expected to help the Medical Devices Sector grow from the present US\$11 billion to US\$50 billion by 2030. FORM NO. MR-3
SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2023

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,

The Members,

Kimia Biosciences Limited

CIN: L24239HR1993PLC032120

Village Bhondsi, Tehsil Sohna
Distt Gurgaon, Haryana-122102

We have conducted the Secretarial Audit in respect of the compliance of applicable statutory provisions and the adherence to good corporate practices by Kimia Biosciences Limited (hereinafter referred to as "the Company"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conduct/statutory compliances and expressing our opinion thereon.

Based on our verification of the books, papers, minutes book, forms and returns filed and other records maintained by Kimia Biosciences Limited and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion the Company has, during the audit period covering the financial year ended on March 31, 2023, complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2023, to the extent applicable, and according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992 and Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 amendments made therein from time to time; **Not Applicable**
 - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014; **Not Applicable**
 - (e) The Securities and Exchange Board of India (Registrars to Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client.
 - (f) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008: **Not Applicable**
 - (g) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents), Regulations, 1993 regarding the Companies Act and dealing with client: **Not Applicable**
 - (h) Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009: **Not Applicable**
 - (i) Securities and Exchange Board of India (Buy Back of Securities) Regulations, 1998.
 - (j) Other Laws as applicable specifically to the Company:

I. The Drug and Cosmetics Act, 1940.

II. The Narcotics Drugs and Psychotropic Substances Act, 1985.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (ii) SEBI (The Listing Obligation Disclosure Requirement) Regulations 2015 by the Company with the BSE Limited.

During the year under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, and Standards etc. The observation made in Secretarial Report for the year ended 31st March, 2023 is as follows:

We report that:

1. The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors.
2. Adequate notice was given to all directors of the Board Meetings, and the agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
3. Decisions at the Board meetings were carried out through majority and the views of the dissenting members, if any, were captured and recorded as part of the minutes of meetings.

We further report that during the audit period, the following important events/ actions having bearing on the company affairs in pursuance of the above referred laws, rules, regulation, guidelines and standard were taken:

- Resignation of Ms. Arti as Chief Financial Officer of the Company with effect from August 12, 2022.

3. Meetings of the Board of Directors

Appointment and Tenure

The Directors of the Company are appointed by Members at the General Meetings.

As regards the appointment and tenure of Independent Directors, the following policy has been adopted by the Board:

- The Company has adopted the provisions with respect to appointment and tenure of Independent Directors which are consistent with the Companies Act, 2013 and SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015.
- The Independent Directors will serve a maximum of two terms of five years each.
- The Company would not have any upper age limit of retirement of Independent Directors from the Board and their appointment and tenure will be governed by provisions of the Companies Act, 2013.

Board Independence

The interpretation of the term 'Independence' of Directors has been based on Regulation 25 of SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015 and Section 149(6) of the Companies Act, 2013. Upon confirmation / disclosures received from the Directors and on evaluation of the same, all Non-Executive Directors, other than the Chairman and Promoter Directors, are confirmed to be Independent.

Separate Independent Directors Meetings

The Independent Directors met once during the year under report, i.e., March 30, 2023, without the presence of Executive Directors or Management representatives.

The Independent Directors, inter alia, discussed the following:

- the performance of non-Independent Directors and the Board as a whole;
- the performance of the Chairman of the Company, taking into account the views of Executive Directors and Non-Executive Directors; and
- the quality, quantity and timeliness of flow of information between the Company management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

In addition to these formal meetings, interactions outside the Board meetings also take place between the Chairman and Independent Directors.

Appointment Letter and Familiarisation programmes for the Board Members

At the time of appointing a director a formal letter of appointment is given to him/ her, which inter alia explains the roles, functions, duties and responsibilities expected to be discharged by him/ her during his/ her tenure as director of the Company.

The Independent Directors go through a familiarisation programme to familiarise them with the Company, their role, rights, responsibilities in the Company, nature of industry in which the Company operates, business model, management structure, industry overview, internal control systems and processes and the like.

Details of the familiarisation programme of the Company may be accessed at web link: [://www.kimiabiosciences.com/wp-content/uploads/2023/03/Familiarisation-Programme-for-Independent-Director.pdf](http://www.kimiabiosciences.com/wp-content/uploads/2023/03/Familiarisation-Programme-for-Independent-Director.pdf)

Board Meetings

During the year, Fifteen (15) Board Meetings were held on 16.05.2022, 30.05.2022, 04.06.2022, 23.06.2022, 15.07.2022, 21.07.2022, 12.08.2022, 17.08.2022, 05.09.2022, 30.09.2022, 14.11.2022, 02.01.2023, 10.02.2023, 14.02.2023, and 28.03.2023.

4. Committees of the Board

The Board has established the following statutory and non-statutory committees:

Audit Committee

The Audit Committee comprises Mr. Jagdeep Dhawan as Chairman, Mr. Sameer Goel as Member and Richa Gupta as Member.

The Company Secretary is the Secretary of the Committee. During the year under review, four meetings of the Committee were held on 30.05.2022, 12.08.2022, 14.11.2022 and 13.02.2023.

The terms of reference of the Audit Committee are as per Regulation 18 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, read with Section 177 of the Companies Act, 2013, and includes such other functions as may be assigned to it by the Board. Audit Committee of the Company is entrusted with the responsibility to supervise the Company's internal controls and financial reporting process and inter alia performs the following functions, amongst others:

- a) Overseeing the Company's financial reporting process and disclosure of financial information to ensure that the financial statements are correct, sufficient and credible;
- b) Recommending to the Board, the appointment, re-appointment of the Statutory Auditor and Internal Auditor and fixation of audit fees and approval for payment of any other services;
- c) Reviewing with the Management, the annual financial statements before submission to the Board for approval;
- d) Reviewing with the Management, the quarterly and annual Financial Statements before submission to the Board for approval;
- e) Reviewing with the Management the performance of the Statutory Auditors and the Internal Auditors and the adequacy of internal audit systems

- f) Reviewing with the Management the adequacy of internal audit functions.

The meetings of Audit Committee are also attended by the Chief Financial Officer, Statutory Auditors and Internal Auditor as special invitees. The Company Secretary acts as the Secretary to the Committee. The minutes of each Audit Committee meeting is placed and confirmed in the next meeting of the Board.

Nomination and Remuneration Committee

The Nomination and Remuneration Committee comprises Mr. Jagdeep Dhawan as Chairman and Ms Richa Gupta and Mr. Vipul Goel, as Members.

In terms of Section 178(1) of the Companies Act, 2013 and Regulation 19 of SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015, the Nomination and Remuneration Committee should comprise of at least three Directors, all of whom should be Non-Executive Directors. At least half of the Committee members should be Independent with an Independent Director acting as the Chairman of the Committee.

The Company Secretary is the Secretary of the Committee.

The terms of reference of the Nomination and Remuneration Committee is in accordance with the Companies Act, 2013 and Part II of Schedule D of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, which inter alia deals with manner of selection of Directors, Key Managerial Personnel and Senior Management Personnel, formulation of criteria for evaluation of the performance of the Directors and determining the remuneration of Key Managerial Personnel and other employees of the Company.

The Nomination and Remuneration Committee recommends the appointment of Directors and remuneration of such Directors other than Independent Directors. During the year under review, seven meetings of the Committee were held on 01.04.2022, 28.04.2022, 16.05.2022, 30.05.2022, 04.06.2022, 05.09.2022 and 10.02.2023.

Stakeholders' Relationship Committee

The Stakeholders' Relationship Committee comprises Mr. Jagdeep Dhawan as Chairman and Ms. Richa Gupta and Mr. Vipul Goel, as Members.

The Committee oversees the performance of the Registrar and Share Transfer Agent and recommends measures for overall improvement in quality of investor service. The committee also looks into redressal of shareholders'/ investors complaints.

During the year, the Committee met Eight (8) times on 15.06.2022, 23.06.2022, 02.07.2022, 21.07.2022, 28.07.2022, 14.02.2023, 15.02.2023 and 29.03.2023. Company effectuated all requests for transfer of shares, consolidation and issue of duplicate share certificate, within prescribed time limits.

The Company Secretary is designated as the Compliance Officer for resolution of Shareholders' complaints.

All the requests received during the year for issue of new share certificates after split of shares and request for Transfer of Shares were attended to and resolved satisfactorily.

CSR Committee

The CSR Committee comprises Mr. Sameer Goel as Chairman and Mr. Jagdeep Dhawan and Ms. Richa Gupta, as Members.

The Company Secretary is the Secretary of the Committee.

The role of CSR Committee inter alia includes:

The Corporate Social Responsibility Committee shall —

- (i) formulate and recommend the CSR policy to the Board;
- (ii) recommend the amount of expenditure to be incurred on CSR activities;
- (iii) monitor the CSR policy of the company from time to time; and
- (iv) formulate and recommend to the Board, an annual action plan in pursuance of its CSR policy, which shall include the items as mentioned in rule 5(2) of the Companies (CSR Policy) Rules, 2014.

During the financial year ended March 31, 2023, the Committee met September 15, 2022.

5. Affirmation and Disclosures

All the members of the Board and Management have affirmed their compliance with the Code of Conduct as on 31st March, 2023 and a declaration to that effect, signed by the Chief Financial Officer (CFO), is attached and forms part of this Report.

There were no material financial or commercial transaction, between the Company and members of the Management that may have a potential conflict with the interest of the Company at large. All details relating to financial and commercial transactions where Directors may have a pecuniary interest are provided to the Board and the interested Directors neither participate in the discussion nor vote on such matters.

6. Disclosures on materially significant related party transactions

Attention of Members is drawn to the disclosure of transactions with related parties which are set out in Notes on Accounts – **Note No. 40**—forming part of the audited accounts of the Company. None of the transactions with any of the related parties were in conflict with the interests of the Company.

7. Shareholder Information

CERTIFICATE ON COMPLIANCE WITH THE CONDITIONS OF CORPORATE GOVERNANCE

To

The Members

Kimia Biosciences Limited

I have examined the compliance conditions of corporate governance by Kimia Biosciences Limited for the financial year ended March 31, 2023 as stipulated in Chapter IV of SEBI (Listing Obligation and Disclosure Requirement) Regulations, 2015.

The compliance of conditions of Corporate Governance is the responsibility of the management. My Examination was limited to procedures and implementation thereof, adopted by the Company for ensuring compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company. In my opinion and to the best of my information and according to the explanations given to me, I certify that the Company has complied with the conditions of Corporate Governance as stipulated in (Listing Obligation and Disclosure Requirement) Regulations, 2015.

I further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITOR'S REPORT

To The Members of Kimia Biosciences Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Kimia Biosciences Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended March 31, 2023. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matters	How our audit addressed the key audit matters
A. Valuation of inventories We refer to note 2 and 8 to the financial statements. As at March 31, 2023, the total carrying value of inventories was Rs. 4823.38 lakhs. The assessment of impairment of inventories involves significant estimation uncertainty, subjective assumptions and the application of significant judgment. Reviews are made periodically by management on inventories for obsolescence and decline in net realizable value below cost. Allowances are recorded against the inventories for any such declines based on historical obsolescence and slow-moving history. Key factors considered include the nature of the stock, its ageing, shelf life and turnover rate. Accordingly, due to complexity/ judgement involved in inventory valuation. Inventory valuation were determined to be a key audit matter in our audit of the financial statements.	We have checked and analyzed the ageing of the inventories, reviewed the historical trend on whether there were significant inventories written off or reversal of the allowances for inventory obsolescence. We conducted a detailed discussion with the management and considered their views on the adequacy of allowances for inventory obsolescence considering the current economic environment. We have also reviewed the subsequent selling prices in the ordinary course of business and compared against the carrying amounts of the inventories on a sample basis at the reporting date. We found management's assessment of the allowance for inventory obsolescence and valuation of inventories to be reasonable based on available evidence.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the applicable laws and regulations.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls with reference to these financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report;
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 37 to the financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There were no amount which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv.
 - a. The management has represented that, to the best of it's knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries") during the year, with the understanding, whether recorded in writing or otherwise, that the Intermediaries shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b. The management has represented, that, to the best of it's knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties") during the year, with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c. Based on such audit procedures, we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) above contain any material misstatement.
 - v. The Company has not declared and paid any dividend during the year. Therefore, reporting in this regard is not applicable to the Company.
- (h) Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company with effect from April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.

3. In our opinion and according to the information and explanations given to us, the managerial remuneration paid/ provided by the Company for the year ended March 31, 2023 is in accordance with the provisions of section 197 read with Schedule V to the Act.

Annexure A to Independent Auditor's Report of even date to the members of Kimia Biosciences Limited on the financial statements as of and for the year ended March 31, 2023 (Referred to in paragraph 1 of our report on the other legal and regulatory requirements)

- (i) a. (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation of property, plant & equipment, however the same need to be updated.
- (B) The Company is maintaining proper records showing full particulars of intangible assets.
- b. The Company has a regular programme of physical verification of its property, plant and equipment by which property, plant and equipment are verified over a period of three years, which in our opinion, is reasonable having regard to the size of the Company and nature its property, plant and equipment. In accordance with this programme, property, plant and equipment were physically verified during the year and no material discrepancies were identified on such verification.
- c. Based on the records examined by us, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favor of the lessee) and included in property, plant & equipment [note no. 3 to the financial statements] are held in the name of the Company.
- d. The Company has not revalued its property, plant and equipment and intangible assets during the year. Therefore, the provisions of clause 3(i)(d) of the Order are not applicable to the Company.
- e. According to information and explanations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder. Therefore, provisions of clause 3(i)(e) of the Order are not applicable to the Company.
- (ii) a. The management has conducted physical verification of inventories during the year at reasonable interval and in our opinion, the coverage and procedure of such verification by the management is appropriate. No discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such physical verification.
- b. As per the information and explanations given to us, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. As informed to us, the Company has submitted its quarterly returns and statements online via the Banker's portal. However, it has not been able to extract the corresponding correspondence for these submissions. As a result, we cannot comment about the variance between the quarterly returns/statements submitted and the books of accounts, if any.
- (iii) Based on the books of account examined by us and according to information and explanation given to us, the Company has not granted loans, provided any advance in the nature of loans, or stood guarantee, or provided security during the year. Therefore, the provisions of clause 3(iii)(a) to 3(iii)(f) of the Order are not applicable to the Company.
- (iv) According to information and explanations given to us, no loans granted, investment made, guarantee and security under section 186 and no loan or guarantee or security under section 185 of the Companies Act, 2013 have been given during the year. Therefore, the provisions of clause 3(iv) of the Order are not applicable to the Company.
- (v) The Company has not accepted any deposit or amount which are deemed to be deposits covered under sections 73 to 76 of the Companies Act, 2013 and the Companies (Acceptance of Deposits) Rules, 2014 (as amended) during the year. Therefore, provisions of clause 3(v) of the Order are not applicable to the Company.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Act in respect of the Company's products to which the said rules are applicable and are of the opinion that prima facie, the prescribed records have been made and maintained. We have not, however, made a detailed examination of the said records with a view to determine whether they are accurate or complete.
- (vii) a. According to the records of the Company examined by us, the Company is generally regular in depositing undisputed statutory dues including Goods and Service Tax, Provident Fund, Employees State Insurance, Income-tax, Sales tax, Service tax, Duty of customs, Duty of excise, Value Added tax, Cess and other statutory dues as applicable, with the appropriate authorities except payment of Income-tax. There were no undisputed outstanding statutory dues as at the yearend for a period of more than six months from the date they became payable.
- b. According to the information and explanation given to us and the records of the Company examined by us, there are no statutory dues referred to in sub-clause (a) on account of any dispute except the followings where amount has been quantified:

Name of Statue	Nature of disputed dues	Amount (Rs. in Lakhs)	Period to which it relates	Forum where dispute is pending
Punjab Value Added Tax, 2005	Penalty	11.67	2014-15	Panchkula Civil Court

- (viii) According to the information and explanation given to us, there were no transactions which have not been recorded in the books of account, but have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961. Therefore, provisions of clause 3(viii) of the Order are not applicable to the Company.

- (ix) a. The Company has not defaulted in repayment of loan and in the payment of interest thereon during the year.
- b. According to information and explanations given to us, the Company is not declared willful defaulter by any bank or financial institution or other lender.
- c. According to information and explanations given to us, term loans taken during the year, were applied for the purpose for which the loans were obtained.
- d. According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, we report that no funds raised on short-term basis during the year have been used for long-term purposes by the Company.
- e. The Company has no subsidiaries, joint ventures or associate. Therefore, the provisions of clause 3(ix)(e) and 3(ix)(f) of the Order are not applicable to the Company.
- (x) a. The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. Therefore, the provisions of clause 3(x)(a) of the Order are not applicable to the Company.
- b. The Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Therefore, the provisions of clause 3(x)(b) of the Order are not applicable to the Company.
- (xi) a. Based upon the audit procedures performed and considering the principles of materiality outlined in Standards on Auditing, for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given to us, we have neither come across any instance of fraud by the Company or on the Company noticed or reported during the year nor have we been informed of any such case by the management.
- b. According to the information and explanation given to us and to the best of our knowledge, no report under subsection (12) of section 143 of the Act has been filed in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year.
- c. According to the information and explanations given to us, no whistle blower complaints were received by the Company during the year.
- (xii) In our opinion, the Company is not a Nidhi company. Therefore, the provisions of clause 3(xii) of the Order are not applicable to the Company.
- (xiii) As per records of the Company examined by us, transactions with the related parties are in compliance with section 177 and 188 of the Act, where applicable and details for the same have been disclosed in the financial statements as required by the applicable Indian Accounting Standards.
- (xiv) a. In our opinion and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business, however same needs to be further strengthened.
- b. We have considered internal audit reports of the Company issued till date for the period under audit.
- (xv) According to the information and explanations given to us, in our opinion, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with them, hence provision of section 192 of the Companies Act, 2013 are not applicable to the Company. Therefore, the provisions of clause 3(xv) of the Order are not applicable to the Company.
- (xvi) a. In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Therefore, the provisions of clause 3(xvi)(a) of the Order are not applicable to the Company.
- b. In our opinion, the Company has not conducted any Non-Banking Financial or Housing Finance activities during the year. Therefore, the provisions of clause 3(xvi)(b) of the Order are not applicable to the Company.
- c. In our opinion, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Therefore, the provisions of clause 3(xvi)(c) of the Order are not applicable to the Company.
- d. According to the representations given to us, there is no CIC as part of the Group. Therefore, the provisions of clause 3(xvi)(d) of the Order are not applicable to the Company.
- (xvii) The Company has incurred cash losses of Rs. 905.58 Lakhs in current financial year and Rs. 207.72 Lakhs in the immediately preceding financial year.
- (xviii) There has been no resignation of statutory auditors during the year. Therefore, the provisions of clause 3(xviii) of the Order are not applicable to the Company.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they

fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- (xx) a. Unspent amount of Rs. 0.97 Lakhs for the financial year 2022-23 towards Corporate Social Responsibility ("CSR") other than ongoing projects requiring to be transfer to a Fund specified in Schedule VII to the Companies Act, 2013 to comply with second proviso to sub-section (5) of Section 135 of the Companies Act, 2013.
- b. Unspent CSR amount Rs. 6.89 Lakhs for financial year 2021-22 related to ongoing projects, remained outstanding for transfer to special account to comply with the provision of section 135(6) of the Companies Act, 2013.

Annexure B to Independent Auditor's Report of even date to the members of Kimia Biosciences Limited on the financial statements for the year ended March 31, 2023 (Referred to in paragraph 2(f) of our report on the other legal and regulatory requirements)

We have audited the internal financial controls with reference to financial statements of Kimia Biosciences Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over the financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by Institute of Chartered Accountants of India and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of Internal Financial Controls with reference to financial statements included obtaining an understanding of Internal Financial Controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A Company's Internal Financial Controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India however same need to be further strengthened.

The Company has also obtained manufacturing license from the State Drugs Controller-cum-Licensing Authority, Food and Drugs Administration, Haryana in order to manufacture final product Bulk Drugs Active Pharmaceutical - (APIs).

Statement of Compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) prescribed under section 133 of the Companies Act 2013, read with Companies (Indian Accounting Standard) Rules, 2015 as amended time to time.

Accounting Policies have been consistently applied except where a newly issued Ind AS is initially adopted or a revision to an existing accounting standard required a change in the accounting policy hitherto in use.

The Board of Directors has approved the financial statements for the year ended March 31, 2023 and authorized for issue on May 30, 2023. However, shareholders have the power to amend the financial statements after issue.

Basis of preparation

The financial statements have been prepared on a historical cost basis except certain items that are measured at fair value as explained in accounting policies.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability, if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116 – Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 – Inventories or value in use in Ind AS 3 – Impairment of Assets.

These financial statements are presented in Indian National Rupee (‘₹’), which is the Company’s functional currency. All amounts have been rounded to the nearest ₹ Lakhs, except when otherwise indicated.

Use of estimates and critical accounting judgements

In the preparation of financial statements, the Company makes judgements in the application of accounting policies; estimates and assumptions which affect carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Key source of estimation of uncertainty at the date of financial statements, which may cause material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment, useful lives of property, plant and equipment and intangible assets, valuation of deferred tax assets, provisions and contingent liabilities, fair value measurement of financial instruments and retirement benefit obligations as disclosed below:

Useful lives of property, plant and equipment and intangible assets

The Company has estimated the useful life of each class of assets based on the nature of assets, the estimated usage of the asset, the operating condition of the asset, past history of replacement, anticipated technological changes, etc. The Company reviews the useful life of property, plant and equipment and intangible assets at the end of each reporting period. This reassessment may result in change in depreciation and amortisation expense in future periods.

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

Impairment

An impairment loss is recognised for the amount by which an asset's or cash-generating unit's carrying amount exceeds its recoverable amount to determine the recoverable amount, management estimates expected future cash flows from each asset or cash generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. In the process of measuring the Company estimates the value in use of the cash generating unit (CGU) based on future cash flow after considering current economic conditions and trends, estimated future operating results and growth rates and anticipate future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The cash flows are discounted using a suitable discount rate in order to calculate the present value.

Valuation of current tax and deferred tax assets

The tax jurisdictions for the Company is India. Significant judgments are involved in determining the provision for income tax including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods. The recognition of current and deferred taxes that are subject to certain legal or economic limits or uncertainties is assessed individually by management based on the specific facts and circumstances. The Company reviews the carrying amount of deferred tax assets at the end of each reporting period.

Provisions and contingent liabilities

A provision is recognised when the Company has a present obligation as result of a past event and it is probable that the outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent Liability may arise from the ordinary course of business in relation to claims against the Company. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgments and the use of estimates regarding the outcome of future events. Contingent liabilities are not recognised in the financial statements.

Fair value measurements of financial instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including Discounted Cash Flow Model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair value. Judgements include considerations of inputs such as liquidity risks, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Retirement benefit obligations

The Company's retirement benefit obligations are subject to number of assumptions including discount rates, inflation and salary growth. Significant assumptions are required when setting these criteria and a change in these assumptions would have significant impact on the amount recorded in the Company's balance sheet and the statement of profit and loss. The Company sets these assumptions based on previous experience and third party actuarial advice.

2 Significant Accounting Policies

Accounting Policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard required a change in the accounting policy hitherto in use.

The significant accounting policies applied by the Company in the preparation of its financial statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these financial statements, unless otherwise indicated.

a) Operating cycle and current versus non-current classification

Based on the nature of goods manufactured and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current noncurrent classification of assets and liabilities.

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading.
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All the other assets are classified as non-current.

A liability is classified as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current asset and non-current liabilities respectively.

b) Property, plant, and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment, any. For this purpose, cost includes deemed cost which represents the carrying value of property, plant and equipment recognised as at 1st April, 2015 measured as per the previous Generally Accepted Accounting Principles (GAAP). Property plant and equipment acquired under the Scheme of Amalgamation, has been stated at value determined on appointed date i.e. April 1, 2019 as defined under Ind AS 103 "Business Combination". Subsequent additions are made at cost. Cost includes a direct costs and expenditures incurred to bring the asset to its working condition and location for its intended use. Trial run expenses (net of revenue) are capitalised. Borrowing costs and incidental expenses incurred during the period of construction are capitalised upto the date when the assets are ready for intended use.

An item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. This recognition principle is applied to costs incurred initially to acquire an item of property, plant and equipment and also to costs incurred subsequently to add to, replace part of, or service it. All other repair and maintenance costs, including regular servicing, are recognised in the statement of profit and loss as incurred. When a replacement occurs, the carrying value of the replaced part is derecognised. Where an item of property plant and equipment comprises major components having different useful lives, these components are accounted for as separate items.

The gain or loss arising on disposal of an item of property, plant and equipment is determined as the difference between sale proceeds and carrying value of such item, and is recognised in the statement of profit and loss.

c) Intangible assets (other than Goodwill)

Intangible assets (other than goodwill) are stated at cost of acquisition or construction less accumulated amortisation and impairment, if any. For this purpose, cost includes deemed cost which represents the carrying value of intangible asset recognised as at 1st April, 2015 measured as per the previous Generally Accepted Accounting Principles (GAAP). Intangible assets acquired under the Scheme of Amalgamation, has been stated at value determined on appointed date i.e. April 1, 2019 as defined under Ind AS 103 "Business Combination". Intangible assets subsequently purchased are measured at cost as at the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

d) Capital work-in-progress

Capital work-in-progress representing expenditure incurred in respect of assets under development and not ready for the intended use, are carried at cost. Cost includes related acquisition expenses, construction cost, related borrowing cost and other direct expenditure.

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

e) Depreciation and amortisation of property, plant and equipment and intangible assets

Depreciation is calculated on Straight Line Method using the rates arrived at based on the estimated useful lives given in Schedule II of the Companies Act, 2013. In case of assets acquired under the Scheme of Amalgamation estimated life has been re-assessed by the Company basis technical assessment, which is equivalent to estimated useful lives stated in Schedule II of the Companies Act, 2013.

Assets value up to ₹5,000 are fully depreciated in the year of acquisition.

Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date they are available for use.

Depreciation on all assets commences from the dates the assets are available for their intended use and are spread over the estimated useful economic lives or, in the case of leased assets, over the lease period or estimated useful life whichever is less. The estimated useful lives of assets and residual values are reviewed at each reporting date and, when necessary, are revised.

f) Borrowing and Borrowing Costs

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in Statement of profit and loss over the period of the borrowings using the effective interest method. Borrowings are derecognised from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a borrowings that has been extinguished or transferred to another party and the consideration paid including any non-cash assets transferred or liabilities assumed, is recognised in Statement of profit and loss as other gains/(losses). Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Ancillary costs incurred in connection with the arrangement of borrowings are adjusted with the proceeds of the borrowings.

g) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss.

For assets an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumption used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

h) Inventories

Inventories are valued as follows:

Raw materials and stores and spares - Lower of cost and net realisable value. Cost is determined on a weighted average basis. Materials and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost.

Work-in-progress, plantation work-in-progress and finished goods - Lower of cost and net realisable value. Cost include direct materials, labour and a proportion of manufacturing overheads.

Waste - At net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and to make the sale. However, materials and other items held for use in the production of finished goods are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Provision for obsolete/ old inventories is made, wherever required.

i) Revenue Recognition

The Company recognizes revenue when it satisfies a performance obligation in accordance with the provisions of contract with the customer. This is achieved when;

- effective control of goods along with significant risks and rewards of ownership has been transferred to customer;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Company; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue represents net value of goods sold to customers after deducting for certain incentives including, but not limited to discounts, volume rebates, etc. For incentives offered to customers, the Company makes estimates related to customer performance and sales volume to determine the total amounts earned and to be recorded as deductions. The estimate is made in such a manner, which ensures that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The actual amounts may differ from these estimates and are accounted for prospectively.

The Company considers shipping and handling activities as costs to fulfill the promise to transfer the related products and the customer payments for shipping and handling costs are recorded as a component of revenue. In certain customer contracts shipping and handling services are treated as a distinct separate performance obligation and the Company recognizes revenue for such services when the performance obligation is completed.

Revenue are net of Goods and Service Tax. No element of significant financing is present as the sales are made with a credit term, which is consistent with market practice.

Revenue (other than sale) is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Export incentives are recognized when there is reasonable assurance that the Company will comply with the conditions and the incentives will be received.

Interest and dividend income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividends are recognised at the time the right to receive payment is established.

Contract balances

Contract assets: Contract assets are recognised when there is excess of revenues earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liabilities: A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

j) Research and Development Expenses

Revenue expenditure on Research and Development is charged as expenses under the head "Research and Development" in the year in which it is incurred. Capital expenditure incurred on equipment and facilities that are acquired for research and development activities is capitalised and depreciated according to the policy followed by the Company.

k) Foreign currencies

The Company's financial statements are presented in Indian Rupees, which is also its functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rate of exchange at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in statement of profit or loss are also recognised in OCI or statement of profit or loss, respectively).

l) Income Taxes

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted in India, at the reporting date.

Current tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets is offset against current tax liabilities if, and only if, a legally enforceable right exists to set off the recognised amounts and there is an intention either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and an unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. Deferred tax liabilities are generally recognised for all the taxable temporary differences.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

m) Employee benefit

Short-term benefits

Short-term employee benefits are expensed in the year in which the related services are provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

Retirement benefit in the form of provident fund and superannuation fund are defined contribution schemes. The Company has no obligation, other than the contribution payable to the provident fund and superannuation fund. The Company recognizes contribution payable to the provident fund scheme and superannuation fund scheme as an expense, when an employee renders the related service.

Defined benefits plans

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. Gratuity is a defined benefit obligation.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method at each reporting date. In respect of post-retirement benefit re-measurements comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets, are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to statement of profit or loss in subsequent periods.

Past service cost is recognised as an expense when the plan amendment or curtailment occurs or when any related restructuring costs or termination benefits are recognised, whichever is earlier.

Other long-term benefits

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the balance sheet date. Actuarial gains/ losses on the compensated absences are immediately taken to the statement of profit and loss and are not deferred. The obligation is measured on the basis of an independent actuarial valuation using the projected unit credit method at each reporting date.

n) Leases

Company as a lessee

The Company assesses if a contract is or contains a lease at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company recognizes a right-of-use asset and a lease liability at the commencement date, except for short-term leases of twelve months or less and leases for which the underlying asset is of low value, which are expensed in the statement of operations on a straight-line basis over the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or, if not readily determinable, the incremental borrowing rate specific to the company, term and currency of the contract. Lease payments can include fixed payments, variable payments that depend on an index or rate known at the commencement date, as well as any extension or purchase options, if the Company is reasonably certain to exercise these options. The lease liability is subsequently measured at amortized cost using the effective interest method and remeasured with a corresponding adjustment to the related right-of-use asset when there is a change in future lease payments in case of renegotiation, changes of an index or rate or in case of reassessments of options.

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

The right-of-use asset comprises, at inception, the initial lease liability, any initial direct costs and, when applicable, the obligations to refurbish the asset, less any incentives granted by the lessors. The right-of-use asset is subsequently depreciated on a straight-line basis, over the lease term, if the lease transfers the ownership of the underlying asset to the Company at the end of the lease term or, if the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, over the estimated useful life of the underlying asset. Other are also subject to testing for impairment if there is an indicator for impairment. Variable lease payments not included in the measurement of the lease liabilities are expensed to the statement of operations in the period in which the events or conditions which trigger those payments occur. In the statement of financial position right-of-use assets and lease liabilities are classified respectively as part of property, plant and equipment and short-term/long-term debt.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease shall not be straight-lined, if escalation in rentals is in line with expected inflationary cost. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

Contingent rentals are recognised as revenue in the period in which they are earned.

o) Provisions, contingent liabilities and contingent assets

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

In those cases where the outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognised.

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events but is not recognised because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Company discloses the existence of contingent liabilities in other notes to financial statements.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent assets are not recognised. However, when inflow of economic benefits is probable, related asset is disclosed.

p) Earnings per share

Basic earnings per equity share is computed by dividing net profit or loss for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share is computed by dividing net profit or loss for the year attributable to the equity shareholders of the Company and weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at face value (i.e. the average market value of the outstanding equity shares).

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

q) Cash and cash equivalents

Cash and cash equivalent comprise cash at banks and on hand, cheques on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

r) Fair value measurement

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in a general approximation of value, and such value may never actually be realized. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability, if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (net asset value (unadjusted)) in active markets for identical assets or liabilities that the company can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

s) Government grant

Grants from the Government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions. The benefit of a Government loan at a below-market rate of interest is treated as a Government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates and is being recognised in the Statement of Profit and Loss.

Government grants that compensate the Company for expenses incurred are recognised in the Statement of Profit and Loss, as an income or deduction from the relevant expense, on a systematic basis in the periods in which the expense is recognised.

Government grant relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Statement of Profit and Loss on a systematic basis over the expected lives of the related assets to match them with the cost for which they are intended to compensate and presented within other income.

t) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting done to the chief operating decision maker. The chief operating decision maker regularly monitors and reviews the operating result of the Company in a single operating segment and geographical segment.

u) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument. Financial instrument (except trade receivables) are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Trade receivables are measured at their transaction price unless it contains a significant financing component in accordance with Ind AS 115 for pricing adjustments embedded in the contract. Subsequent measurement of financial assets and financial liabilities is described below:

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

Non-derivative financial assets

Subsequent measurement

i. Financial assets carried at amortised cost

A financial asset is measured at the amortised cost, if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

ii. Investments in equity instruments

Investments in equity instruments, where the Company has opted to classify such instruments at fair value through other comprehensive income (FVOCI) are measured at fair value through other comprehensive income. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Dividends on such investments are recognised in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment.

iii. Financial assets at fair value through Profit & Loss (FVTPL)

Financial assets, which does not meet the criteria for categorization as at amortised cost or as FVOCI, are classified as at FVTPL

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit & Loss.

v) Compound Financial Instrument

The component parts of compound instruments issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. Conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recorded as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. The conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to other component of equity. When the conversion option remains unexercised at the maturity date of the convertible note, the balance recognised in equity will be transferred to retained earnings. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables: In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

Other financial assets: In respect of its other financial assets, the Company assesses if the credit risk on those financial asset has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

De-recognition of financial assets: A financial asset is primarily de-recognised when the contractual rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Derivative financial instruments: In the ordinary course of business, the Company uses derivative financial instruments to reduce business risks which arise from its exposure to foreign exchange. The instruments are confined principally to forward foreign exchange contracts and these contracts do not generally extend beyond six months.

Derivatives are initially accounted for and measured at fair value from the date the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Non-derivative financial liabilities

Subsequent measurement: Subsequent to initial recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities: A financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments: Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

w) Standards issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (India Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (India Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

i. **Ind AS 1 – Material accounting policies-** The amendments mainly related to shifting of disclosure of erstwhile "significant accounting policies" in the notes to the financial statements to material accounting policy information requiring companies to reframe their accounting policies to make them more "entity specific. This amendment aligns with the "material" concept already required under International Financial Reporting Standards (IFRS).

ii. **Ind AS 8 – Definition of accounting estimates -** The amendments specify definition of 'change in accounting estimate' replaced with the definition of 'accounting estimates'.

iii. **Ind AS 12 – Income taxes –** Annual Improvements to Ind AS (2021) - The amendment clarifies that in cases of transactions where equal amounts of assets and liabilities are recognised on initial recognition, the initial recognition exemption does not apply. Also, If a company has not yet recognised deferred tax asset and deferred tax liability on right-of-use assets and lease liabilities or has recognised deferred tax asset or deferred tax liability on net basis, that company shall have to recognise deferred tax assets and deferred tax liabilities on gross basis based on the carrying amount of right-of-use assets and lease liabilities existing at the beginning of 1 April 2022.

The Company does not expect aforesaid amendments to have significant impact on aforesaid financial statements.

	473.13	473.13

D. Rights, Preferences and Restrictions :

(a) Equity shares

The Company has only one class of equity share having a par value of ₹ 1 each (Previous year ₹ 1 each). Each shareholder is eligible for one vote for every share held and is entitled to dividend declared from time to time. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts, in proportion to their shareholding.

(b) Redeemable non-convertible cumulative preference shares

Each preference share holder is eligible for dividend, in case dividend is declared by the company on other class of shares. 38 Employee benefits

(vii) A quantitative sensitivity analysis for significant assumption are given as below :

(₹ Lakhs)				
Particulars	As at March 31, 2023		As at March 31, 2022	
Sensitivity Level	0.50%	-0.50%	0.50%	- 0.5%
Effect of change in discount rate	(6.14)	6.71	(4.99)	5.39
Effect of change in salary escalation	6.64	(6.14)	5.45	(5.09)

- a. The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.
- b. Sensitivities due to mortality and withdrawals are insignificant, hence ignored. Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable being a lump sum benefit on retirement.
- c. Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

(viii) Maturity profile of defined benefit obligation :

Particulars			(₹ Lakhs)	
			Current Year	Previous Year
Within next twelve months			1.48	3.49
Between one to five years			17.61	11.79
Beyond five years			107.73	82.34
(ix) Weighted average duration (in years)			17.36	17.25
(x) Expected next year contribution			40.82	29.92

(xi) Description of Risk Exposures:

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such the Company is exposed to various risks as follow -

- A) Salary Increases- Higher than expected increase in salary will increase the defined benefit obligation.
- B) Discount Rate – Reduction in discount rate in subsequent valuations can increase the plan's liability.
- C) Mortality & disability – Actual deaths & disability cases proving lower or higher than assumption in the valuation can impact the liabilities.
- D) Withdrawals – Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

39 Segment Reporting

- (a) According to Ind AS 108, identification of operating segments is based on Chief Operating Decision Maker (CODM) approach for making decisions about allocating resources to the segment and assessing its performance. The business activity of the company falls within one broad business segment viz. "Pharmaceuticals" and substantially sale of the product is within the country. Hence, the disclosure requirement of Ind AS 108 of 'Segment Reporting' is not considered applicable. The secondary segment is geographical, information related to which is given as under:

	As at March 31, 2023			As at March 31, 2022		
	Within India	Outside India	Total	Within India	Outside India	Total
Sales (gross)	10,339.73	2,473.98	12,813.71	10,188.07	2,274.69	12,462.76
Trade Receivables (gross)	2,971.99	139.36	3,111.35	2,918.88	129.51	3,048.39

The Company has common assets for producing goods for domestic market and overseas market.

- (b) The Company has one customer (previous year one customer) whose revenue was greater than 10% revenue of the Company's total revenue.

41 Financial Instruments

(₹ Lakhs)

A) Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Particulars	As at March 31, 2023		As at March 31, 2022	
	Carrying Value	Fair Value	Carrying Value	Fair Value
(a) Measured at fair value through Profit and Loss				
Financial assets				
Investments- Current	6.32	6.32	6.04	6.04
	6.32	6.32	6.04	6.04
(b) Measured at amortized cost				
(i) Financial assets				
Other financial Assets				
- Non Current	20.28	20.28	20.28	20.28
- Current	193.17	193.17	100.73	100.73
Trade receivables	3,058.97	3,058.97	3,020.14	3,020.14
Cash and cash equivalents	17.77	17.77	20.49	20.49
Bank balances other than cash and Cash equivalents	32.08	32.08	31.24	31.24
	3,322.27	3,322.27	3,192.88	3,192.88
(ii) Financial liabilities				
Borrowings				
- Non Current	3,083.56	3,083.56	2,444.56	2,444.56
- Current	2,208.36	2,208.36	1,617.00	1,617.00
Trade payables	4,658.64	4,658.64	4,020.62	4,020.62
Other financial Liabilities				
- Non Current	532.76	532.76	488.77	488.77
- Current	426.96	426.96	313.00	313.00
Total	10,910.28	10,910.28	8,883.95	8,883.95

The management assessed that cash and cash equivalents, other bank balances, trade and other receivables and trade and other payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

B) Fair value hierarchy

The fair value of financial instruments as referred to in note (A) above has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities [Level 1] measurements] and lowest priority to unobservable inputs [Level 3 measurements].

The categories used are as follows:-

Level 1: Quoted prices for identical instruments in an active market;

Level 2: Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a net asset value or valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

KIMIA BIOSCIENCES LIMITED

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED March 31, 2023

a) Financial assets and liabilities measured at fair value - recurring fair value measurements

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

(a) recognised and measured at fair value and

(b) measured at amortised cost.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

(i) Financial Instruments measured at FVTPL

(₹ Lakhs)

As at 31st March 2023	Level 1	Level 2	Level 3	Total
Assets at fair value				
- Equity Shares	1.40	-	-	1.40
- Mutual Fund	4.92	-	-	4.92

As at 31st March 2022	Level 1	Level 2	Level 3	Total
Assets at fair value				
- Equity Shares	1.32	-	-	1.32
- Mutual fund	4.72	-	-	4.72

(ii) Financial Instruments measured at amortised cost

As at 31st March 2023	Level 1	Level 2	Level 3	Total
- Preference shares	-	-	532.76	532.76
As at 31st March 2022	Level 1	Level 2	Level 3	Total
- Preference shares	-	-	488.77	488.77

b) Valuation process and technique used to determine fair value

The fair value of investments in quoted equity shares and mutual funds are based on the current bid price of respective investment as at the balance sheet date.

In case of preference shares, the Company has used valuation report of external valuer. Valuation was derived using discounted cash flow method which was based on present value of the expected future economic benefit.

c) Fair value measurements using significant unobservable inputs (level 3)

Fair value of instruments measured at amortised cost for which fair value is disclosed is as follows, these fair values are calculated using Level 3 inputs:

Type of Financial Instruments	Fair Value as at		Discounting Rate	Significant unobservable inputs	Sensitivity
	March 31, 2023	March 31, 2022			
Preference shares	532.76	488.77	9% (previous year 9%)	Risk-adjusted discount rate	Change of (+) 50 / (-) 50 basis points - Fair value would change by -11.12/11.43 Lakhs respectively

42 Financial risk management objectives and policies

Risk Management Framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the processes to ensure that executive management controls risks through the mechanism of properly defined framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed by the board annually to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities. The carrying amount of financial assets represents the maximum credit exposure. The Company monitor credit risk very closely in domestic market. The Management impact analysis shows credit risk and impact assessment as low.

Trade and other receivables:

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes market check, industry feedback, past financials and external ratings, if they are available. Sale limits are established for each customer and reviewed periodically.

The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables.

In monitoring customer credit risk, customers are reviewed according to their credit characteristics, including whether they are an individual or a legal entity, their geographic location, industry and existence of previous financial difficulties. The ageing analysis of the receivables has been considered from the date the invoice falls due:

(₹ lakhs)

Particulars	Receivable not yet due:	Past due			
		Less than 6 months	6 months -1 year	More than 1 Year	Total
As at March 31, 2023	1,749.80	1,257.23	9.56	94.75	3,111.34
As at March 31, 2022	2,351.77	647.19	6.97	42.45	3,048.39

The movement in the allowance for impairment in respect of trade and other receivables during the year was as follows:

(₹ lakhs)

Particulars	As at March 31, 2023	As at March 31, 2022
Balance at the beginning	28.25	28.25
Impairment loss recognised during the year	35.87	-
Amounts reversed during the year	(11.74)	
Balance at the end	52.38	28.25

During the year, the Company has made write-offs ₹ 11.74 (Previous year ₹ Nil Lakhs) of trade receivables, it does not expect to receive future cash flows or recoveries from collection of cash flows previously written off. The Company management also pursue all legal option for recovery of dues wherever necessary based on its internal assessment.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected future cash flows. This is generally carried out in accordance with practice and limits set by the Company. These limits vary by location to take into account requirement, future cash flow and the liquidity in which the entity operates. In addition, the Company's liquidity management strategy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Financing Arrangement

The cash credit facilities may be drawn at any time and may be terminated by the bank without notice. Subject to the continuance of satisfactory credit ratings, the bank loan facilities may be drawn at any time in Indian rupee and have an average maturity within a year.

KIMIA BIOSCIENCES LIMITED
NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED March 31, 2023

(₹ in Lakhs)

Maturity profile of Financial liabilities

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

	< 1 year	1-3 years	3-5 years	> 5 years	Total
Year ended March 31, 2023					
Borrowings	2,208.36	414.87	2,668.69	-	5,291.92
Trade payables	4,658.64	-	-	-	4,658.64
Other financial liabilities	426.96	-	400.00	400.00	1,226.96
	7,293.96	414.87	3,068.69	400.00	11,177.52
Year ended March 31, 2022					
Borrowings	1,617.00	389.36	2,055.20	-	4,061.56
Trade payables	4,020.62	-	-	-	4,020.62
Other financial liabilities	313.00	-	-	800.00	1,113.00
	5,950.61	389.36	2,055.20	800.00	9,195.18

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk, such as commodity price risk and equity price risk. Financial instruments affected by market risk include trade payables, trade receivables, borrowings, etc.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company is exposed to interest rate risk because Company borrows funds at both floating interest rates. These exposures are reviewed by appropriate levels of management. The Company regularly monitors the market rate of interest to mitigate the risk exposure. The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows.

Particulars	Increase / Decrease in basis point	Effect on profit before tax	Effect on equity after tax	Increase / Decrease in	Effect on profit	Effect on equity after tax
	As at March 31, 2023			As at March 31, 2022		
Borrowings from banks and others	+0.50%	(14.27)	(10.68)	+0.5%	(10.03)	(7.51)
Borrowings from banks and others	-0.50%	14.27	10.68	-0.50%	10.03	7.51

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to foreign currency risk primarily related to raw purchase purchases. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency).

Exposure to Foreign Currency

The Company has not entered into derivative instruments to hedge their foreign currency contracts. Foreign currency exposure that are not hedged by a derivative instrument as at Balance Sheet are as follows

		As at March 31, 2023			As at March 31, 2022		
Particulars	Currency	Amount in Foreign Currency	Amount	Conversion Rate	Amount in Foreign Currency	Amount	Conversion Rate
Unhedged Exposure							
Trade Receivables	USD	1.71	140.50	81.95	1.73	131.09	75.81
Trade Payables	USD	(34.52)	(2,889.08)	83.70	(17.22)	(1,305.16)	75.81
Total		(32.80)	(2,748.58)		(15.49)	(1,174.07)	

Foreign currency sensitivity

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency (₹). The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD and small exposure in EURO. The risk is measured through a forecast of highly probable foreign currency cash flows.

	Currency	As at March 31, 2023	As at March 31, 2022	As at March 31, 2023	As at March 31, 2022
USD sensitivity		Profit and Loss		Equity, after tax	
INR/USD- increase by 10%*	USD	(3.35)	(1.55)	(2.51)	(1.16)
INR/USD- decrease by 10%*	USD	3.28	1.55	2.46	1.16

*Holding all other variables constant

Commodity price risk

Commodity price risk for the Company is mainly related to fluctuations in chemical prices linked to various external factors, which can affect the production cost of the Company. Since, the Production costs is one of the primary costs drivers, any adverse fluctuation in chemical prices can lead to drop in operating margin. To manage this risk, the Company places orders, identifying new sources of supply etc. There are no derivatives available for requisite chemicals, in the absence, has to be procured at spot prices. Additionally, processes and policies related to such risks are reviewed and controlled by senior management and requirement are monitored by the procurement team.

KIMIA BIOSCIENCES LIMITED

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED March 31, 2023

43 Capital Management

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The primary objective of the Company's capital management is to maximize the shareholder value. The Company's primary objective when managing capital is to ensure that it maintains an efficient capital structure and healthy capital ratios and safeguard the Company's ability to continue as a going concern in order to support its business and provide maximum returns for shareholders. The Company also proposes to maintain an optimal capital structure to reduce the cost of capital. No changes were made in the objectives, policies or processes during the year ended March 31, 2023 and March 31, 2022.

For the purpose of the Company's capital management, capital includes issued capital, share premium and all other equity reserves. Net debt includes, interest bearing loans and borrowings less cash and cash equivalents. The Company monitors capital using gearing ratio, which is net debt divided by total capital as under:

	(₹ Lakhs)	
Particulars	As at March 31, 2023	As at March 31, 2022
Equity Share Capital	473.13	473.13

As a Lessee

- (i) The Company recognizes the expenses of short-term leases on a straight-line basis over the lease term. During the year, expenses of ₹ 28.38 lakhs (previous year ₹ 23.33 lakhs) related to short-term and low value leases were recognised.
- (ii) There are no income from subleasing right-of-use assets nor any gains or losses from sales and leaseback for the year ended March 31, 2023 and March 31, 2022.
- (iii) There are no variable lease payments for the year ended March 31, 2023.

48 Disclosure under Ind AS 115

(i) Break-up of revenue from operations:

a) Disaggregation of revenue based on major products:

The Company presented disaggregated revenue based on the geographical location of the customers. Revenue is recognised for goods transferred at a point of time. The Company believes that the revenue disaggregation best depicts point in time. The disaggregation of the Company's revenue from contracts with customers is as under:

Revenue from sale of products

- Within India	10,339.73	10,188.07
- Outside India	2,473.98	2,274.69
	12,813.71	12,462.76

b) Timing of revenue recognition:

Products transferred at a point in time	12,813.71	12,462.76
	12,813.71	12,462.76

c) Reconciliation of the amount of revenue recognised in the Statement of Profit and Loss with the contracted price:

Particulars	For the year ended March 31, 2023	For the Year ended March 31, 2022
Contract price		
(i) Sales of products	12,813.71	12,462.76
Adjustments:		
Less : Discount/rebate/ incentives	-	-
Revenue recognised in statement of profit and loss	12,813.71	12,462.76

d) Performance obligations

Sale of products - Revenue from sale of goods is recognised on transfer of goods for a price or all significant risks and rewards of ownership to the buyer which is generally on dispatch of goods from the company in accordance with the terms of sale except where such terms provide otherwise, whereas sales are recognised based on such terms. Gross sales are net of sales return.

- (ii) Significant changes in the contract assets and the contract liabilities balances during the year are as follows:

Particulars	For the year ended March 31, 2023	For the Year ended March 31, 2022
(a) Trade Receivables (refer note 10)	3,111.35	3,048.39
(b) Contract Assets	-	-
Contract liability		
Advance received during the year not recognized as revenue (refer note 25)	180.73	120.00

Advance received from customers are on account of the upfront revenue received from customer for which performance obligation has not yet been completed.

(c) Advances received from customers

Particulars	For the year ended March 31, 2023	For the Year ended March 31, 2022
Balance as at the beginning of the year	120.00	11.44
Amount received during the year	180.73	120.00
Performance obligations satisfied / written back	(120.00)	(11.44)
Balance as as at the end of the year	180.73	120.00

- (d) Contract liabilities include amount received from customers as per the terms of purchase/sales order to deliver goods. Once the goods are completed and control is transferred to customers the same is adjusted accordingly.

- (e) Advance received from customers are on account of the upfront revenue received from customer for which performance obligation has not yet been completed.
